# Town Warrant

---

## THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of North Hampton, in the County of Rockingham, in said State, qualified to vote in Town Affairs:*  
[L. s.]

You are hereby notified to meet at Town Hall in said North Hampton on Tuesday, the tenth day of March next, at one of the clock in the afternoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.

3. To see if the Town will vote to accept State Aid for roads.

4. To see what action the Town will take, if any, in regard to the purchase of a stone crusher.

To transact any other business that may legally come before said meeting.

Given under our hands and seal, this 16th day of February, in the year of our Lord, nineteen hundred and fourteen.

OTIS S. BROWN,  
GILMAN H. MOULTON,  
GEORGE L. GARLAND,  
*Selectmen of North Hampton.*

A true copy of Warrant — Attest:

OTIS S. BROWN,  
GILMAN H. MOULTON,  
GEORGE L. GARLAND,  
*Selectmen of North Hampton.*

## Report of Trustees of Public Library

---

Soon after the beginning of the present fiscal year the Trustees met and considered the more urgent needs of the Library. The building itself seemed to demand our first attention, and accordingly, after giving the interior a thorough cleaning we ordered electric lighting fixtures, as a result of which the Library is now, for the first time, suitably lighted.

There has been a general demand from the Library patrons for new books, none having been purchased for quite a long time; but bearing in mind the recommendation in last year's report, and considering the future of the Library, we decided that we must first arrange to classify and recatalogue the books in such manner that the work should be permanent. As a result, we now have in practical operation a card catalogue, in which all books can be found indexed under both author and title. It was our purpose to adopt such a catalogue system as should give to each volume its individual number. This number should be simple to write and should indicate the class to which the work belonged. It was also required that books by the same author should be adjacent on the shelves and the system should allow of indefinite expansion. We think we have attained all these ends in the system now in use. It is a modification of the "Dewey Decimal" classification and seems best suited to the needs of a Library such as ours. Fiction is kept in a class by itself and all the other works are divided into 44 classes and sub-classes.

A card charging system has been put in operation and this is found to be a great improvement over the former method which was unsuited to our present needs.

As an experiment, the trustees have ventured to provide for the reading room two magazines — *The Century* and *St.*

*Nicholas*, and a few other periodicals furnished by friends of the Library.

By reason of our unusually heavy expenses this year for permanent improvements we have limited our purchases of new books more than we should otherwise have done, but we have bought 64 volumes, of which 43 are fiction.

Our Library is of regular and increasing use to the older scholars in our schools for reference purposes, and while we have much good material in this line, our Library needs "balancing," by providing works in some departments of knowledge in which our resources are very scanty. We hope these needs may gradually be supplied by judicious purchases.

A considerable number of old books have been discarded for various reasons; most of them on account of being worn out. We think the expense of rebinding is not generally warranted in case of books still in print, as it would be more satisfactory to buy fresh copies if they should seem to be needed. We have, however, a few valuable books, now out of print, such as Dr. Kane's "Arctic Explorations," which should be rebound in a substantial and appropriate binding.

We have had presented to us 17 volumes, 10 of which are included in the valuable works, "Messages and Papers of the Presidents of the United States," given by Mr. S. A. Dow.

Since September the Library has been open continuously from 2 to 8 P. M. on both Wednesdays and Saturdays; thus increasing the Library hours from four to twelve per week.

A few months ago Mr. L. W. Fogg resigned his position as Librarian after 21 years of faithful and efficient service. He has been succeeded by Miss Lucy M. Warner, who has entered upon her duties with enthusiasm, and shows herself well adapted to the work of her position.

There are now 1860 volumes in the Library, of which 1130 are fiction. We find on our shelves many valuable books which evidently have been used but very little. Since the books are now arranged in the stacks according to their classification, we recommend that all persons who are interested

in good reading make a personal inspection of the books in any departments in which they may have interest.

We estimate the requirements of the Library for the coming year to be as follows:

Salary of Librarian .....	\$80 00
Fuel .....	20 00
Lighting .....	20 00
New books .....	110 00
Magazines and periodicals .....	10 00
Miscellaneous .....	10 00
<hr/>	
Total .....	\$250 00

We therefore recommend that the above sum of \$250 be raised for Library purposes.

FRED L. DOW,  
EDWARD M. SMITH,  
W. H. PHILBROOK,  
*Trustees of Library.*

Abbott Brown.	Jessie Billings.
Wilbur Drew.	Marion Drake.
Arthur Lovett.	Etta Norton.
Lendo Marston.	Ruth Philbrook.
Carl Moulton.	Ruth Stillings.
Number attending secondary schools.....	12

---

Pupils attending every session during number of terms indicated by figures.

### *Grammar School*

Louise Bachelder, 2.	Laura Dinsmore, 1.
Marion Berry, 2.	Muriel Hill, 2.
Belle Davis, 2.	Doris Norton, 1.
Lydia Davis, 1.	M. Louise Philbrick, 2.
Florence Davis, 2.	Dawn Seavey, 2.
Marion Drake, 1.	Melvin Chevalier, 1.
Dorothy Drake, 1.	Hazen Dinsmore, 1.
Earl Ferguson, 2.	Winthrop Marston, 1.
Philip Marston, 3.	Wallace Tuttle, 1.
George Whenal, 1.	

*Primary School*

Raymond Chevalier, 1.	Norman Leavitt, 1.
Fred Dalton, 1.	Ruth Carter, 1.
Ivan Dinsmore, 1.	Jeannie Drysdale, 2.
Clarence W. Marston, 1.	Eula Parshley, 1.
Walter McKenzie, 1.	Evelyn Philbrick, 1.

*East School*

Hazel Drew, 1.	Evan Brown, 2.
Emma Moulton, 2.	Herbert Brown, 1.
Nellie Moulton, 1.	Osgood Garland, 2.
Pauline Garland, 1.	Wellington Moulton, 3.
Harold Powers, 2 .	

*To the Citizens of North Hampton;*

Your School Board reports one fact with great pleasure, that we now have as fine a corps of teachers as, we believe, can be secured for any country schools.

Our school rooms are well equipped with maps, globes, reference books, and all needful implements for school work, but there is still the great lack without which the best work cannot be done — a suitable building, well lighted and ventilated, and so situated that the schools will not be disturbed nearly every day during the winter season as they now are by the noises pertaining to Centennial hall.

Only when the citizens interest themselves, and determine that the children of North Hampton shall have the best obtainable, will we have schools equal to those in the country towns surrounding us.

Nothing short of a well-built, modern school house will put us on an equality with them, owing to the peculiar situation we now occupy being in the building with a much-used hall.

With a central school building the East school can also be properly graded.

We trust that the parents will show their interest by attending the School District meeting and discussing the matter.

In accordance with the school laws, we recommend that the following amounts be raised in addition to what the law requires to be raised for school purposes.

High school tuition .....	\$360 00
Text books and supplies.....	150 00
Insurance .....	30 00
Official services .....	75 00

FRED A. DREW,  
EVA M. TAYLOR,  
ALBERT E. LOCKE,

*School Board.*

## THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of North Hampton, in the County of Rockingham, in said State, qualified to vote in Town Affairs:*  
[L. S.]

You are hereby notified to meet at the Town House in said Town on Tuesday, the ninth day of March next, at one of the clock in the afternoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.

3. To determine what action shall be taken to secure a water supply for municipal purposes and the extinguishment of fires and to raise and appropriate money for the same.

4. To see what action the Town will take in regard to remodelling the Town Hall or building a new one, agreeable to a petition of Irving W. Marston and nine others.

5. To transact any other business which may legally come before said meeting.

Given under our hands and seal, this 20th day of February, in the year of our Lord nineteen hundred and fifteen.

ALBERT BACHELDER,  
J. RUSSELL DOW,  
GEORGE G. CARTER,  
*Selectmen of North Hampton.*

A true copy of Warrant—Attest:

ALBERT BACHELDER,  
J. RUSSELL DOW,  
*Selectmen of North Hampton.*

## STATE HIGHWAY DEPARTMENT

The State Superintendent of Highways sends the following instructions in regard to appropriations for 1915:

Highway appropriation required in the town of North Hampton, for general repair of highways and bridges.....	\$1,650 00
If the town does not vote to accept State Aid, it must set aside as a Permanent Improvement Fund	\$1,261 00
If State Aid is desired, there must be raised and set aside the sum of.....	\$630 50
If State Aid is accepted and voted, the State will appropriate.....	\$472 75
If the town votes to apply for State Aid the Joint Fund will be as follows:	
Town to raise.....	\$1,891 50
State to give.....	472 75
Total.....	<hr/> \$2,364 25

## STATE AID

Under the provision of the Motor Vehicle law the State is able to assist in the maintenance of the roads under State Aid.

The estimate for maintenance in North Hampton for the year 1915 is.....	\$1,200 00
If the town will appropriate for such maintenance the sum of.....	600 00
The State will appropriate.....	600 00

Inasmuch as the Motor Vehicle law did not change the town liability for maintenance of a road I trust that your town will raise the amount indicated herein and so benefit by the State's proportion, as otherwise the entire maintenance charge will fall upon the town.

S. PERCY HOOKER,

*State Supt. of Highways.*

# Report State Tax Commission, 1914

---

## INCREASE IN PUBLIC EXPENDITURES

No power has constituted the members of the tax commission guardians of the public in respect to expenditures for the support of government, and they have no disposition to assume that role. Nevertheless, "economy being a most essential virtue in all states," and it being "the duty of legislators and magistrates \* \* \* to countenance and inculcate the principles of \* \* \* economy," all as set forth in the constitution of this state, the commissioners believe themselves to be amply justified in urging, as they have so often urged before, the importance of this subject upon the voters of the state. The public revenue, state and municipal, is the voters' business and they are responsible, directly or indirectly, for every extravagance affecting it from the inception to the termination of the fund.

Every compulsory contribution levied by public authority upon people or property is in the broad sense of the term a tax, nor is it made less obnoxious or burdensome if called a fee or a fine. In the figures that follow therefore, all fees, fines, and other exactions, if any, are included with the taxes upon polls and estates. To illustrate the comparative importance of the two classes, it may be said that the taxes upon polls and estates represent about 95 per cent. and all other income about 5 per cent. of the total revenue of the state, and of the counties, cities, towns, districts and precincts therein.

Taxes as defined above have increased by leaps and bounds in recent years. In 1903 the sum of all the taxes assessed by and within the state of New Hampshire was \$5,373,420.22; in 1913 it was \$8,765,039.07, an increase of \$3,391,618.85, or 63 per cent. in ten years. But these figures do not adequately represent the velocity the upward movement has now attained. To show that it is necessary to divide the ten-year period: The levy in 1908 was \$924,388.79, or 17 per cent. greater than in 1903, while that in 1913 was \$2,467,230.06, or 39 per cent.

greater than in 1908. By so much did the advance in the last half of said period exceed that in the first half. These figures will be the more alarming if it is remembered that while taxes already sufficiently heavy were advancing 63 per cent., the population of the state increased only about  $4\frac{1}{2}$  per cent., and while the one was advancing 39 per cent., the other increased only about  $2\frac{1}{4}$  per cent.

It is instructive to study the subject from another angle. In the ten years from 1904 to 1914, both inclusive, the annual increase in all taxes defined and limited as above was as follows:

1904.....	\$34,459.91
1905.....	286,590.14
1906.....	115,468.39
1907.....	411,257.46
1908.....	76,612.89
1909.....	539,995.97
1910.....	787,565.31
1911.....	215,848.50
1912.....	296,216.85
1913.....	627,603.43

The average yearly increase for the whole period was \$336,561.85. The upward trend is more plainly shown, however, by dividing, as before, the ten-year period in the middle and considering the halves separately. For the first five years the average annual increase was \$184,877.76; for the last five years it was \$493,446.01. It is surely pertinent to consider how long the little state of New Hampshire, almost stationary in wealth, can sustain a tax already burdensome and increasing at the rate of practically half a million dollars a year without crippling her industries and impoverishing her people. Plainly it is a condition not calculated to attract capital from without the state or to encourage business within the same.

From the *per capita* standpoint the situation is not less disturbing. In 1903 there were assessed \$12.88 in taxes for each

man, woman and child in the state. Five years later there were assessed \$14.75 for each individual, and in five years more \$20.09. If in 1913 taxes had been equally distributed among all the people it would have meant a burden of \$100 for each family of five members. Though in reality there was little such equality in the assessment, there was much in the payment. The fact is, that those who occupy, use or consume property, no matter who owns it, are those who in the last analysis pay most, if not all, of the taxes thereon. If the wage earner or the man of limited means understood he was in reality paying something like \$100 a year in state and municipal and half as much more in federal taxes for the government of himself, his wife and three children his influence and his vote would more frequently make for economy in appropriations and expenditures than heretofore.

No statistics for the year 1914 appear in the above paragraphs for the reason that they are not yet at hand except in part.

# Report of Trustees of Public Library

---

During the past year the Trustees have purchased 81 new volumes for the Library and three volumes have been presented, making the total additions 84, of which 50 volumes were fiction. Our reading room has been well supplied with periodicals, partly by purchase, but mostly through the kindness of friends of the Library.

The Trustees recommend that patrons of the Library be more free about making suggestions regarding desirable additions of books or magazines. Our library should be made more useful to our students of all grades and considerable accessions to our present list of books suitable for this purpose are necessary. We hope our teachers and older scholars may suggest such books of reference, or books suitable for supplementary reading as may best meet our needs in this line.

The Library cellar has never been concreted and we recommend that this work be done as soon as practicable. In times of heavy rain the water is liable to come into the cellar and the consequent dampness is bad for the building and contents. We understand that the cost of the work should be inside of \$100.

We estimate the ordinary running expenses for the coming year as follows:

Salary of Librarian.....	\$80 00
Fuel and lighting.....	40 00
New books.....	140 00
Magazines and periodicals.....	15 00
Miscellaneous.....	25 00

---

Total.....\$300 00

We therefore recommend that the above sum of \$300 be raised for the running expenses of the Library.

W. H. PHILBROOK,  
EDWARD M. SMITH,  
LUCY M. WARNER,  
*Trustees of Library.*

*To the Citizens of North Hampton;*

The school year for 1914-1915 closes with the schools in excellent condition, being under the control of able teachers.

We feel we have again been favored in retaining and securing most excellent teachers to instruct our pupils. It is their aim to impart knowledge to the children and instill in their minds the love of the beautiful and cultivate a high sense of moral standing.

In this latter aim we implore the hearty co-operation of the parents and townspeople that we may see our young people growing into manhood and womanhood with a high standard of purity and education.

At the opening of the Fall term we found ourselves facing a problem regarding satisfactory conditions in the primary room at the Centre School.

With an incoming first grade of eleven and a total of forty-one in the four lower grades an assistant was found necessary in order that the time might be devoted to the newcomers and give them a proper start.

The committee were fortunate in being able to secure Miss Nima B. Locke to assist Mrs. Ford.

We placed nine seats in the small room between the two rooms and installed classes there.

During the Christmas recess Miss Locke resigned and Miss Lila Moulton was engaged to fill the place. She is doing excellent work along the same lines as Miss Locke.

Our great need is properly ventilated schoolrooms. This is a great problem, of intense and vital interest to every parent.

How can it be obtained? It seems as though three rooms could be made where we now have two at the Centre and in so doing plan for better conditions.

Transportation of pupils causes a great deal of unpleasantness and in looking up the towns within our state we find some have given up the transportation problem. We trust this matter may be adjusted at our school meeting.

It is gratifying to all to see how many of our pupils continue their education beyond our Grammar Schools. At present there are eighteen in High School and one in Commercial College.

Last June we had a Grammar School Graduation and it was much enjoyed by all. We look forward to a graduation this year in June.

Our music has held its high standard this year and with the aid of our new music readers we expect our Supervisor will please us more than ever.

The weak point of our course seems to be in our lack of a course in drawing. There seems to be no connected line of work that will tend to be of any real worth to the pupil in later life.

Can we not work along more logical lines another year?

Our increased expenses in salaries of teachers by way of an assistant this year, the increase of sum of tuition at Hampton High School, also the large sum paid for transportation, as you may see by the treasurer's report, has made our expenses seem unduly large.

You must realize with the increase of High School pupils and

needed repairs we are asking for only what we feel we actually need for the coming year.

Trusting we shall work in perfect harmony as an entire community for the best good to the greatest number, we beg to submit the above report.

CLARA N. WENTWORTH BROWN,  
ALBERT E. LOCKE,  
GEORGE A. BOYNTON,

*School Board.*

## THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of North Hampton, in the County of Rockingham, in said State, qualified to vote in Town Affairs:*  
[L. S.]

You are hereby notified to meet at the Town House in said Town, on Tuesday, the fourteenth day of March next, at one of the clock, in the afternoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.
3. To hear the report of the committee on Water Supply and to determine what action shall be taken to secure a water supply for municipal purposes and the extinguishment of fires and to raise and appropriate money for same.
4. To see if the Town will accept the bequest of \$20,000 to build and maintain a High School under the conditions named in the will of Mr. John W. F. Hobbs.
5. To see if the Town will vote to accept State Aid for roads.
6. To see if the Town will authorize the Trustees of the Cemetery to care for the South Cemetery, provided the families interested will raise \$50.00 or more, the Town to raise a like sum and the interest to be used to care for said Cemetery.
7. To see if the Town will vote to make some improvements in the Fire Apparatus protection and raise money therefor.
8. To see if the Town will vote to instruct the Selectmen or such Committee as may be appointed to make such changes as may be required in the contract with the Rockingham Light and Power Company to save the Town some expense

on the Street Lighting, or, to extend the system as may be deemed best and raise money as may be required therefor.

9. To see if the Town will vote to construct a sidewalk from the "Y" to Fogg's Corner and appropriate money for same.

10. To transact any other business which may legally come before said meeting.

Given under our hands and seal, this 21st day of February, in the year of our Lord nineteen hundred and sixteen.

ALBERT BACHELDER,  
GEORGE G. CARTER,  
J. RUSSELL DOW,

*Selectmen of North Hampton.*

A true copy of Warrant — Attest:

ALBERT BACHELDER,  
GEORGE G. CARTER,  
J. RUSSELL DOW,

*Selectmen of North Hampton.*

COPY OF SECOND PARAGRAPH OF WILL OF JOHN  
W. F. HOBBS

At the decease of my said son, Edson C. Hobbs I give, devise and bequeath the said sum of twenty thousand dollars and the surplus interest if any that may have accrued thereon to the town of North Hampton, N. H., the income thereof to be used for the support of a High School in said town if said town will accept said sum and erect a suitable building for a High School to cost not less than five thousand dollars, and to keep the same in good repair with all the necessary fixtures and apparatus required for such a school and will locate said school building near the town house on the west side of the railway in said town of North Hampton and as near the depot as a suitable place can be had, then upon a compliance with all the foregoing conditions and not otherwise, the aforesaid bequest is given and granted. If the same bequest is accepted upon the terms and conditions heretofore set forth, then I constitute and appoint Joseph O. Hobbs, George Garland and Frank R. Drake, all of said North Hampton and Abbott Norris and William S. Merrill, both of Hampton, N. H., trustees of said High School, who shall hold said sum in trust, applying the interest and income thereof for the support of said school. In case the said town of North Hampton shall neglect and refuse for the period of three years after the death of my said son to comply with all the aforesaid conditions then I give and bequeath ten thousand dollars out of said sum of twenty thousand dollars to Hampton Academy the income thereof to be used for the support of that institution and either of the beforementioned cases said sum of twenty thousand dollars or ten thousand dollars shall be known as, and called the Hobbs Fund.

## STATE OF NEW HAMPSHIRE

## HIGHWAY DEPARTMENT

February 15, 1916.

Highway appropriation required in the town of North Hampton for general repair of highways and bridges, \$1,650.00.

If the town does not vote to accept State Aid, it must set aside as a permanent improvement fund, \$1,239.00.

If state aid is desired, there must be raised and set aside the sum of \$619.50.

If state aid is accepted and voted, the state will appropriate \$464.50.

STATE HOUSE, CONCORD, February 15, 1916.

Town of North Hampton.

Mr. Albert Bachelder, Chairman:

*Dear Sir:*—Under the provision of the Motor Vehicle law the State is able to assist in the maintenance of the roads under State Aid.

There is available, from the amount appropriated last year, the following balances:

*State Aid*

In State Treasury.....	\$146.26
In Town Treasury .....	146.26

The estimate for maintenance in your town for the year 1916 is \$1800.00.

If the town will appropriate for such maintenance the sum of \$900.00, the State will appropriate \$900.00.

Inasmuch as the Motor Vehicle law did not change the town liability for maintenance of a road I trust that your town will raise the amount indicated herein and so benefit by the State's proportion, as otherwise the entire maintenance charge will fall upon the town.

The item for maintenance may be either inserted in the warrant or taken from the general highway fund.

Yours very truly,

S. E. EVERETT, *Commissioner.*

-------------------------------------	----------

## Report of Trustees of Public Library

---

During the past year we have purchased 89 new volumes and one has been presented, making the total additions 90, of which 54 were fiction. The number of volumes in the library is now about 2030, of which about 1230 are works of fiction. The foregoing statement does not include a very recent and extensive addition to our works of reference. We have received from Clifford S. Drake, Esq., a gift consisting of his complete sets of "State Papers of New Hampshire" and the "Official Records of the War of the Rebellion." The two works comprise something like 160 volumes and have not as yet been cataloged or placed on our shelves.

Our reading room is supplied with the *Century*, *St. Nicholas*, *Harper's* and *Scribners'* magazines and some other publications are furnished by friends of the library.

During the year a concrete floor has been placed in the cellar, and we have done such work on the rear wall and roof as seemed necessary to prevent a recurrence of the flooding of the cellar, which had happened three times in the past two years, and was becoming a serious menace to the building and its contents.

We have nearly reached the limit of the capacity of our book stacks, and additional ones must be installed within a year or two. It may be advisable to arrange accommodations for our books of reference in the reading room. We would gain considerable space by this change. A few of our books, which are of permanent value and are now in a dilapidated condition, must be rebound in the near future.

We have all met with a great loss in the death of our very efficient librarian, Miss Lucy Mayo Warner, who died on January 30th, after a lingering illness.

We estimate the ordinary running expenses for the coming year as follows:

Salary of librarian .....	\$80.00
Fuel and lighting .....	45.00
New books .....	140.00
Magazines and periodicals .....	15.00
Miscellaneous .....	20.00
	<hr/>
	\$300.00

We therefore recommend that the above sum of \$300.00 be raised for the running expenses of the library.

W. H. PHILBROOK,  
EDWARD M. SMITH,  
*Trustees of Library.*

*To the Citizens of North Hampton:*

Another year has passed and we submit our report of progress, trusting it may find favor in your eyes.

In the year that is now closed we have tried to serve the best interests of the people of the community and in all cases have ruled as wisely as we could.

The subject of transportation was informally discussed at the school meeting and the sentiment was in favor of transportation during the winter term. One thing that meeting failed to do was to vote extra funds to defray additional expense along this line.

We believe we have made a wise choice of people to serve us in this capacity. Our only failing seems to be in being unable to care for the East School pupils properly. In fact we could find no one to carry the pupils, and as a result some are forced to remain at home during this term.

This year our teaching force is made up of three new teachers, who are making their start in our schools. Miss Gertrude L. Carter and Miss Marion G. Knight, graduates from the Newburyport Training School last June, have charge of the Centre Schools, with Miss Moulton as assistant. Miss Mildred S. Roberts, a graduate from Salem Normal School, class of 1915, has charge of the East School.

Our firm belief in a school superintendent is made stronger when we are forced to secure teachers that have not taught. They need the guiding hand of a man who has learned much by years of school supervision. I trust at the school meeting you will vote to employ a superintendent of schools for the coming year. It will pay.

We feel our teachers are doing excellent work, but can do

far better work if only outside help could be given every week.

Our efforts along the great problem of proper ventilation have proved a failure. What we would like to do to secure satisfactory results is not practical or possible in the building now in use. The cost would be far beyond our means.

By glancing over our report you can readily see our boys and girls are taking advantage of the High School courses. This year the tuition paid by the town amounts to a large sum and doubtless each year will increase, for each year more pupils go away to higher schools.

During the summer vacation the East School was repaired and one-half of the roof resingled and a new platform laid. At the Centre School the much-needed concrete floor laid in the basement, making a clean place for the pupils to play when the weather will not allow out-of-door playing.

We call attention to our signs placed on either side of our school buildings, warning autoists to go slow when approaching the school houses.

CLARA N. WENTWORTH BROWN,  
ALBERT E. LOCKE,  
CLARENCE H. LARUE,

# Town Warrant

---

[L. S.]

## STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of North Hampton in the County of Rockingham, in said State, qualified to vote in Town affairs:*

You are hereby notified to meet at the Town House in said town, on Tuesday, the thirteenth day of March next, at one of the clock in the afternoon to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.
3. To hear the report of the committee on the John W. F. Hobbs fund.
4. To see what action the town will take towards rental of hydrants from the Hampton Water Company for fire and municipal purposes.
5. To see what action the town will take towards improving the Mill Road between Witch Bridge and the residence of Mrs. James A. Bunker and raise money for the same.
6. If Senate bill number ten becomes a law, to see if the town will instruct the selectmen to arrange with the State Highway Commission to take over the road from Fogg's Corner to Rye line and improve the same.
7. To see if the town will vote to accept State Aid for roads.

8. To see what action the town will take regarding locating four electric street lights on Maple Road.

Given under our hands and seal, this 20th day of February, in the year of our Lord nineteen hundred and seventeen.

ALBERT BACHELDER,  
GEORGE G. CARTER,  
IRVING W. MARSTON,

*Selectmen of North Hampton.*

## Report of Trustees of Public Library

---

During the past year we have purchased 67 new volumes and five have been presented, making a total addition of 72 volumes, of which 39 were fiction. The number of volumes in the Library is now about 2260, of which about 1260 are fiction. Our reference books have been increased by complete sets of the "State Papers of New Hampshire" and "Official Records of the War of the Rebellion," which were given to the Library last year by Clifford S. Drake, Esq., and can now be found on our new book shelves in the reading room.

We have continued our subscriptions to the same magazines as last year, viz.: *Century*, *Harper's*, *St. Nicholas* and *Scribner's*. For several years Miss Mary L. Gilman has been furnishing our reading room with the *London Illustrated News*, an especially interesting periodical in these times.

A year ago the trustees found that our book shelves were becoming badly crowded, and as a temporary relief we had built a tier of shelves in the reading room. This was done at an expense of about \$50, and will probably give room sufficient for our needs for several years.

Next year we shall probably be free from any large bills for repairs or betterments and can increase our book purchases accordingly. Our card index is always kept up to date and in addition we publish at intervals a list of our new books in the *Exeter News-Letter*.

The Trustees will welcome any suggestions from friends and patrons of the Library.

## LIBRARY EXPENSES

Paid L. K. Lane, Librarian.....	\$73.33
E. M. Smith, books, etc.....	115.22
Book fines.....	6.41
D. J. Lamprey, wood.....	32.50
Warren Moulton, repairs.....	57.65
Otis S. Brown, insurance.....	50.00
Rockingham Light & Power Co., lights	13.60
	<hr/>
	\$348.71
Received from sale of old books.....	6.41
	<hr/>
	\$342.30

We estimate the ordinary running expenses for the coming year as follows:

Salary of Librarian.....	\$80.00
Fuel and lighting.....	50.00
New books.....	140.00
Magazines and periodicals.....	15.00
Miscellaneous.....	15.00
	<hr/>
	\$300.00

We therefore recommend that the above sum of \$300.00 be raised for the running expenses of the Library.

EDWARD M. SMITH,  
FRED L. DOW,  
*Trustees of Library.*

Herbert Brown, 1.	Priscilla Merrill, 1.
Beatrice Kendall, 1.	Dorothy Rumford, 1.
Mary Lamprey, 1.	

*To the Citizens of North Hampton:*

During the past year many changes have taken place in our  
board and schools.

The retirement of our secretary, Rev. Clarence H. LaRue,  
from our midst was a great loss to your school board. His

knowledge of educational principles, his fair judgment of matters pertaining to school management, and his always gentlemanly, christian attitude in critical times, is seldom to be excelled. So with his departure from the board we suffered a great loss.

His place has been filled by Mr. Wilfred Chevalier.

In July we found ourselves obliged to accept three resignations and those places have been filled by able teachers.

Miss Doris McNeill has charge of the Centre Grammar School; Miss Lila Moulton, the Centre Primary School; Miss Annie Lord is in charge of the East School. It is with pleasure that we note the increasing interest of the parents in our schools, as we are convinced that a hearty spirit of cooperation between parents, teachers and pupils, cannot fail to produce good results.

We are much pleased to note the growth in numbers of the East School. In the not far distant future the second room may have to be reopened there.

Our efforts in regard to a superintendent were of no avail. The wheels were blocked in three directions. In the future it will be wise for one to attempt this task and do it early, rather than all trying to do it, for they often hinder their own progress.

In leaving the board the chairman humbly suggests no stone be left unturned in attempting to secure a superintendent of schools, and he be given full power to manage the schools and school affairs.

The board should stand ready to make him feel they were strong backers to his good work and that they looked to him for excellent results. The teachers should know from whom to take orders and suggestions and to whom to look for help on all points.

CLARA N. WENTWORTH BROWN,  
WILLARD H. PHILBROOK,  
WILFRED J. CHEVALIER,

*School Board.*

# Town Warrant

---

[L. s.] THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of North Hampton in the County of Rockingham, in said State, qualified to vote in Town affairs:*

You are hereby notified to meet at the Town House in said town, on Tuesday, the twelfth day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.

3. To see what action the town will take in regard to accepting State Aid for roads.

4. To choose one delegate to the Constitutional Convention to be holden in Concord, June 5, 1918.

5. To transact any other business which may legally come before said meeting.

Given under our hands and seal, this 19th day of February, in the year of our Lord nineteen hundred and eighteen.

FRED L. COTTON,  
GEORGE G. CARTER,  
IRVING W. MARSTON,

*Selectmen of North Hampton.*

A true copy of warrant—attest:

EDWARD C. MARSTON,  
ARTHUR E. SEAVEY,

*Auditors.*

---

## Report of Library Trustees

---

Since the publication of last year's report we have purchased 88 new books and two have been presented, making a total addition of 90 volumes, of which 47 are fiction. The number of volumes in the Library is now about 2,350, of which about 1,300 are fiction.

We have continued our subscriptions to the same magazines as last year, viz.: *Century*, *Harper's*, *Scribner's* and *St. Nicholas*.

We have for some time needed a proper and convenient place for the display of new books, and with this end in view a sectional bookcase has been installed near the Librarian's desk, as will appear in the statement of our expenses. In

addition to our card catalog where all books are double indexed, we publish from time to time in the *Exeter News-Letter* lists of recent accessions to the Library.

On account of the high cost and scarcity of fuel the Trustees have discontinued the Wednesday opening until warmer weather. The Library continues to be open as usual on Saturdays, from 2 to 8 P. M.

Some additional grading should be done in front of our Library Building, and as this would properly be considered as a permanent addition and betterment we have not included it in our estimate of current running expenses.

The Trustees will gladly receive any suggestions looking toward improvements in Library service.

#### LIBRARY EXPENSES

Librarian's salary . . . . .	\$80.00	
New books . . . . .	93.99	
Magazines . . . . .	16.50	
Bookcase . . . . .	19.25	
Fuel . . . . .	48.00	
Lighting . . . . .	13.60	
Painting and labor . . . . .	95.04	
Cleaning . . . . .	9.36	
Miscellaneous . . . . .	18.17	
		<hr/>
		\$393.91
Received from book fines . . . . .		4.07
		<hr/>
		\$389.84

We estimate the ordinary running expenses for the coming year as follows:

Salary of Librarian . . . . .	\$80.00	
Fuel and lighting . . . . .	65.00	
New books . . . . .	125.00	
Magazines and periodicals . . . . .	15.00	
Miscellaneous . . . . .	15.00	
		<hr/>
		\$300.00

We, therefore, recommend that the above sum of \$300.00 be raised for the running expenses of the Library.

EDWARD M. SMITH,  
FRED L. DOW,

# School Report

---

*To the Citizens of North Hampton:*

Another year has passed, and the time has arrived to submit our annual report. In our school work the past year we have probably made some mistakes, but there are some things wherein the results are very satisfactory.

The room at the East school was remodeled; windows on the south side were closed up, and more put in on the north side. This gives extra good light on the left side of desk, and the pupils' eyes are not blinded by bright rays from the sun. The heating arrangement has been changed by enclosing the stove with a galvanized steel covering; the result is now an even heat in all parts of the room. The matter of ventilation has been given attention, this being one of the most important things to consider. The East School Building is now in a very satisfactory condition, and is approved by State Board of Instruction.

The building at the Center is not satisfactory in many ways. Competent men have been called on for advice, but no one has been found who could give a satisfactory and practical plan of making changes that would meet the approval of the State Board.

Probably it will not be many years before the state authorities will demand a Central Building. For this reason the School Board has not deemed it wise to make any extended and expensive changes.

The legislature of 1915 recognized that there were many unsuitable school buildings in the state. A bill was passed empowering the State Board of Health to make changes when necessary. The Department of Public Instruction is working with the State Board of Health, and has secured improvements in a large number of buildings. The department in carrying on this campaign for better school buildings advise that School Boards should ascertain the needs of their school,

and secure appropriations to make needed changes and repairs. It is recommended that the appropriations must be sufficient to provide for decent school conditions in all school buildings. In addition, they recommend that the district should designate one building each year for complete renovation. It is better to make one building complete each year than to make a few minor repairs and never have one in the condition it should be.

Some of the requirements of the State are:

Sufficient light from curtained windows from the left, or left and rear only.

Sufficient heat and ventilation.

Floors of hard wood.

Adjustable chairs and desks, or those of varied sizes.

Slate or composition boards.

Provision for manual training and domestic science.

Decent toilets with lattice connections to the school rooms.

Separate cloak rooms.

Individual water supply.

Suitable flag and appurtenances.

We feel that the town was extremely fortunate in securing the services of Mr. Carl Cotton as our Superintendent. Under his supervision great progress has been made. He has a most excellent system in his work, and now, as the schools are better organized than ever before, under his direction the best of results may be expected the coming year.

We have been fortunate in our teachers the past year. Miss Doris Lee McNeal has charge of the Center Grammar, where she has done most excellent work.

Miss Lila Moulton has been very successful in the Center Primary. She has been handicapped to some extent by the crowded condition of the school; her work has been highly commended.

The East School is in charge of Miss Anne Lord. She is one of our successful teachers; a visit to the school would convince any one of her ability far better than anything we can say in this report.

Since our last report was issued, our Supervisor of Music and Drawing, Mr. Carl L. Akeley, passed away. We felt the loss keenly. Mr. Akeley had been our instructor for many years, and the work he did in our schools, the impressions he stamped on our pupils in music and drawing, also their character and temperament, can never be removed. It is cast too deep to be obliterated. Mr. Akeley was a man of rare ability, a beautiful character, and his love for children to see them improve and develop was his greatest pleasure.

We were fortunate in securing as Mr. Akeley's successor Miss Helen Johnson, of Newburyport. She came highly recommended, and is doing excellent work in her line.

An amendment to the School Laws was passed at the last session of the General Court, and signed by the Governor April 4, 1917, making the fiscal year of the town and special school districts beginning February 16, 1917, end August 31, 1918; and thereafter the fiscal year and the scholastic year shall end August 31, annually. Appropriations this year will have to be made to maintain the schools until August 31, 1919.

One more important matter that we wish to call your attention to, is the water at the Center school. Drinking water is now obtained from some nearby residence, or any place where we can beg it, and sometimes it has to be carried a long distance. We should supply the school with good pure water, and plenty of it.

The town went to an expense of several hundred dollars for a drilled artesian well. This well proved to be a failure, plenty of water, but white with clay, and cannot be used for any purpose. Well men claim that the well can be put in good condition and guaranteed good water for less than two hundred dollars. We believe it would be a good plan to have a competent committee chosen with power to put this well in proper condition.

The School Board would make an urgent appeal to every voter, and to every one having children in the schools, to make an effort to attend the School Meeting.

It is your duty to assist in the management by electing the

proper persons to serve your town, and vote the proper funds and improvements.

We are using quite a lot of money to run our schools. The out of town tuition at high schools will be more than five hundred dollars the coming year, and will be more in years to come, as rates go higher each year.

Our tax rate for school purposes is one of the lowest in the State. We can afford to do it, and we will make no mistake to make liberal appropriations for our schools, and make them not simply passable, but make them the best that money and experience can procure.

Respectfully submitted,

CLARA N. WENTWORTH BROWN,  
WILFRED J. CHEVALIER,  
ALBERT E. LOCKE.

*School Board.*

---

## Report of Superintendent

---

*To the North Hampton School Board:*

I take pleasure in submitting to you my first annual report as Superintendent of Schools.

During the short period I have been Superintendent I have been moved by two purposes in my supervisory work. My first impulse has been to improve the character of the teaching now in force and second to organize the schools upon a basis adequate to the needs of the locality. These two topics will be treated in detail in the following report.

*District Supervision.*—North Hampton has been fortunate in having been admitted to a supervisory district, which already had passed through the constructive stages of supervision to a well organized and equipped district. North

Hampton is in this way benefiting from many of the details which were an accumulation of a number of years and a number of men who were expert in supervision. Some of these details have already been absorbed by your schools such as a system of admission, discharge and promotion in accounting for school children, a perpetual inventory of supplies, a system of monthly reporting of the subject matter taught and the attendance, together with the returns from the same, a uniform course of study and the teaching aids incidental to it, bulletins directing the teachers relative to their methods and duties, monthly letters to the teachers concerning professional matters and the general welfare of the schools, and circulars to the School Board on those matters which are salient for a business-like administration of the schools.

Frequent tests have been given the subject matter of the schools so as to obtain a quick judgment on the merits of the general work, to test the efficiency of the pupils, individually and collectively, and the teachers, thus securing an adequate basis for supervision. These tests, also, demonstrate to the teacher the varying capacities of the pupils. They enable her to locate the children who need individual attention and to grade the children properly. In classes which are not too large much individual attention may be given each child, so that the pupil of average ability does not receive all of the teacher's time, but so that a proper portion of her time may be devoted to the brighter pupils and to those who are not so rapid in ability.

Teachers' meetings have been held from time to time for the purpose of emphasizing important movements in education, instructing the force in regard to the best methods and details of instruction and creating initiative and professional spirit on the part of the teaching force.

*East School.*—This school has been put in first class condition with proper heating, ventilating and lighting conditions according to the suggestions of former State Superintendent Morrison. The improvements have made the west side of the building into a modern school-room.

*Reorganization.*—In order to have our schools organized on a proper basis with an opportunity for the boys and girls to branch out in their school work so as to cope with real situations as they arise in life, both the buildings and equipment at the Center School need to be modified or entirely changed.

Cultural opportunities are equally well afforded by instruction in domestic science and the industries as by instruction in mathematics and the languages. There is no intention to neglect the instruction in the latter subjects when they are found valuable and when stripped of their formalities. A solution of the problems involved in human life is rightly said to be of more importance than the creation of a high intellectual state for its own sake. Practical subjects develop the individual and social welfare of the boys and girls the same as Latin or mathematics. High ideals and ambitions are stimulated by these subjects, and, when properly taught, afford the same possibilities for intellectual growth.

Our aim in reorganizing upon such a basis is not to perfect skill in the trades or occupations, but to make the boys and girls acquainted with the underlying factors common to life. The school should prepare the child to select a life work more intelligently and enter an occupation somewhat informed relative to the fundamentals involved rather than ignorant of simple practical matters or ill-adapted to attempt to perform them.

A re-organization based upon work of this character for the eighth and ninth grades would include the teaching of concrete geometry, algebra, French or Latin, general science, American history, cooking and sewing for the girls and manual training for the boys. The changes of the last two years in our schools, particularly our participation in the war and the organization of courses in agriculture under the Smith-Hughes subsidy, are tending to make this course outlined of particular importance. This course might be continued further into the ninth and tenth grades, adapting the course of study as suggested.

*Buildings.*—In order to secure the proper facilities for carrying out a programme of this type a more adequate provision for school housing must be made at the Center School. The lighting arrangements here are so improper that it is impossible for the children to see the blackboard when the curtains on the north side of the room are raised. When the curtains are down on that side of the building there is an insufficient amount of light for the pupils seated in that part of the room. Our former State Superintendent found that it is practically impossible to continue school work in these rooms as they are located at present.

While it would be possible to cut up the first floor of the hall in such a manner as to make good class-rooms, such a course of procedure is in the nature of an experiment which might or might not work out well. Such a provision would probably not be a satisfactory arrangement in many respects. The town does not own the property and there are many reasons why the schools should be maintained separately from a public hall. With a tax rate for school purposes of between three and four dollars per thousand of assessed valuation, the lowest in the state, North Hampton should be able at a slight increase in the school tax to maintain the best equipped school system in the state by distributing the burden for new building and equipment over a series of years.

An adequate school system always fully compensates a town by making property more saleable and increasing the population of the town. Good schools generally increase the population of a town to such an extent that they really do not increase the tax rate. They are paid for by a relative increase in property holding.

*A Business Administration.*—From a six months study of the problems which the board will have to meet, I would suggest the advisability of having the Superintendent meet bi-monthly with the School Board. It should be a governing principle in administering school affairs to have them conducted in a thoroughly businesslike manner. At the Board Meetings the Superintendent should report to the Board the condition of

the schools and make recommendations for improvements and changes in policies. Such proposals should have a hearing in much the same manner that the directors of a corporation would listen to the report of their manager. The Board should act in a judicial capacity on the merits of the various proposals made, adopting or rejecting them, but should leave the details and general management in the hands of the Superintendent. In doing so the board will follow sound business principle, a principle which carries with it the advancement of the schools. Methodical work means progress for the schools.

I have no other suggestions to make other than those that I may well take up with you. I wish to take this opportunity of expressing my appreciation for them any courtesies extended to me by the Board and your hearty co-operation.

Respectfully submitted,

CARL COTTON.

Portsmouth, N. H., February 8, 1918.

NEWBURYPORT, MASS.

*Mr. Carl Cotton, Superintendent of Schools, North Hampton, N. H.*

DEAR SIR:—I have the pleasure of submitting my first report of the music in North Hampton.

It is the aim of the instructor not to make musicians of the children, but to develop an appreciation of good music and a degree of facility in sight-reading. Music has been taught to the young children through a large number of rote songs without the presentation of any musical technique.

At the beginning of the year the new normal music books were introduced in the schools.

The results obtained from the different grades have, of course, varied according to the ability and enthusiasm of the children.

In closing, the instructor wishes to thank the Superinten-

This figure, i.e., seventy-nine per cent. of the whole number of pupils in school at the end of the year 1917, is by far too small. Such a loss of pupils is far too great. It may mean several defects or one of several. At any rate the loss from non-promotion ought not to be over five per cent. The average per cent. promotion in this state is ninety-two, making a loss of but eight per cent. Our schools should easily sustain this average and there is no reason why ninety-five per cent. of the children should not be promoted, provided the teaching is efficient.

# Report of Trustees of Public Library

---

NORTH HAMPTON, February 12, 1919.

During the past year we have purchased 63 new books, of which 32 are fiction. The number of volumes in the Library is now about 2,410, of which about 1,330 are fiction. We have provided for our reading room the same periodicals as previously, viz., *Harper's*, *Scribner's*, *Century* and *St. Nicholas*.

No changes in our building or additions to its equipment have been made since the date of our last report. Before many years we shall need to add new bookstacks and rearrange the electric lighting in the bookroom.

We have deemed it advisable to again discontinue Wednesday openings during the months of cold weather. War conditions no longer confront us, but as our wood now costs us \$13 per cord we consider it necessary to use all reasonable economy in its use.

We suggest that the grading of the Library grounds be completed during the coming year, and we recommend that sufficient funds for this purpose be provided in addition to our \$300 annual budget as given below.

Our Librarian, Mrs. Louise Lovett, resigned her position this past year and the Trustees appointed Mrs. Martha Carter in her place.

We would welcome any suggestions from the friends and patrons of the Library.

## LIBRARY EXPENSES

Librarian's salary .....	\$80.00
New books .....	80.09
Magazines .....	14.75
Fuel .....	34.50
Lighting .....	14.29
Miscellaneous .....	11.39
	<hr/> \$235.02
Received from book fines .....	2.93
	<hr/> \$232.09

We estimate the ordinary running expenses for the coming year as follows:

Salary of Librarian .....	\$100.00
Fuel and lighting .....	50.00
New books .....	125.00
Magazines and periodicals .....	15.00
Miscellaneous .....	10.00
	<hr/>
	\$300.00

We therefore recommend that the above sum of \$300, together with such additional money as may be needed for grading, be raised for the running expenses of the Library.

# School Report

---

## *To the Citizens of North Hampton:*

In submitting our annual report, there is much that could be said; we wish to make it brief as possible, and give you such information as we deem important.

Changes in school work are constantly taking place, new laws and regulations are placed before us each year, and at the present time we find our schools largely directed by State laws, the object being to give the children in small towns, as far as possible, an equal advantage with those in the large towns and cities. Much improvement has been made along these lines in the past ten years. House Bill, Number 262, which is now before the Legislature, will make some changes in our school laws. Some of the important matters mentioned are a State Board of Education, consisting of five members, in addition to the governor as member ex-officio. To form supervisory districts, appoint Superintendents, who shall be paid by the State, and each town shall pay the State two dollars for each child enrolled in the school for his support.

We are of the opinion that some improvement has been made in our schools the past year, and that the new system will show still better results in the coming year, as we have only got started at this time.

At the annual school meeting the Trustees of the Centennial Hall offered to turn over any right or title which they had in the building to the school district.

The offer of the trustees was accepted, and an appropriation of \$5,000.00 was made to put the building in suitable condition for schools, so it would meet the approval of State inspectors.

A building committee was chosen, consisting of Mr. John W. Berry, Rev. Arthur S. Burrill, and the School Board, and Mr. Edward M. Smith was later added to this committee. Several meetings were held and no definite plans were made.

The committee were advised that no plan would probably be approved unless made by a regular school house architect.

By recommendation and advice, Mr. Harold E. Mason, of Keene, N. H., was engaged to draw up a set of plans that would come within the appropriation. The plans were made and submitted for bids with all the best contractors and builders in this section. The specifications were such that not a bid was received. The lowest estimate on the plans submitted was over \$12,000. A settlement was made with the architect, and plans discarded.

The season was rapidly advancing, and nothing done. The situation was serious, if we expected to commence school at the usual time. Our prominent contractor and builder, Mr. Warren B. Moulton, was called to the rescue, plans were quickly made and work rushed to a finish, so that schools were opened the sixteenth of September.

The problem of heating the building was taken up from every point of view; it was decided, after consulting several heating and ventilating engineers, that steam heat was the best, most economical, and surest way to heat the building, considering both the hall and school. A contract was made with Mr. Arthur W. Brown, of Hampton Falls, on a cost and commission basis. The plant as arranged can heat the hall and school separate, or both together, as desired. The system has worked out very satisfactorily this winter.

The building as now arranged has four good school rooms on the first floor, Junior High, Intermediate, Primary, and Domestic Science. Manual Training in the basement.

The hall remains intact; outside of few improvements nothing has been changed.

The State Superintendent has inspected the building, and every thing is satisfactory and highly complimented.

Considerable equipment has been procured for Domestic Science and Manual training.

Much interest has been taken in the Junior High. The course for ninth and tenth grades would not be approved, unless we employed another teacher; it was decided best to put all the

time on the seventh and eighth grades for this year, and this was a wise course and all one teacher should attempt. The Junior High should be continued, and with more equipment.

Miss Doris McNeil took up the work in the Junior High, after taking special training along this line. Her work was highly successful, and results satisfactory in every way. The work was too much for any one teacher; she held the position until January 25, when she broke down under the strain, and was obliged to resign. Rev. Arthur S. Burrill has kindly acted as substitute until another teacher can be procured.

We were very fortunate in securing the services of Miss Mabel D. Philbrook, to take the Intermediate School; her work is highly commended.

Miss Helen Thompson, of Epping, has the Primary room, where she has won much praise in her excellent work.

Miss Anne Lord has the East School, where she has so long served with marked ability; her work has always been satisfactory in every way.

Miss Helen Johnson, of Newburyport, the supervisor of music, is meeting with good results in her work; a visit to the school will show what she is doing better than anything we can say.

It was found that the \$200.00 appropriated for the well at Center school was not sufficient to guarantee satisfactory results, so the work was not attempted.

There was a good cistern, put in when the building was erected; on examination this was found in a good state of repair. A new filter, with new pipe and a pump, gives ample supply of water for both school and hall.

Appropriation should be made for painting the building on the outside the coming spring, as it has had but one coat of paint in eighteen years, and this was put on twelve years ago.

Also some interior work should be done in the hall. This hall is now the property of the town, it is our meeting place for most all the social affairs in the town, the place of meeting for nearly all our lodges. We have visitors here from many

other places. We should take pride in having a place that would be a credit to the town.

The town is now in a supervisory district, including North Hampton, Rye, Greenland, Newington, and Durham.

We are fortunate in having as Superintendent Mr. C. H. Walker, who came here highly recommended. Mr. Walker is a hard worker, he has a good system, under his direction we may expect excellent results the coming year.

At present time the town is entitled to 4-22 of the Superintendent's time. On account of changes in our schools we have received considerable more than our share, secured by over work on Mr. Walker's part to get the schools in good working order.

The expense of Superintendent at this time, to the town, is \$176.74, the State paying a like sum.

It is hoped the parents will visit the schools as often as possible, learn the conditions, and be able to co-operate with the teachers in bringing the school up to its highest efficiency.

ALBERT E. LOCKE,  
NELLIE F. DRAKE,  
ADA E. MOULTON,

*School Board of North Hampton.*

---

## Report of Superintendent of Schools

---

*Mr. Chairman and Members of the School Board of North Hampton:*

I have the pleasure to submit my first annual report of the condition of the schools of North Hampton.

Since assuming the office of Superintendent of this district, I have devoted, as nearly as possible, about four twenty-seconds of my time to the schools of North Hampton. I have attended two conferences for Superintendents of the

state, one at Keene, for the week beginning August 20th, and one at Concord in October. I have held one general teachers' meeting with all teachers of the district and one special meeting with the teachers of North Hampton. I have not been able to hold as many meetings with the teachers as I would have liked, due to the fact that the work has been so broken up, on account of several sieges of the influenza epidemic. I have had many private conferences with the teachers when I have given assistance, suggestions and directions regarding school management and methods of instruction.

You have been very fortunate in having an excellent corps of teachers, who are all working faithfully and getting good results. Their scholarship is excellent and their understanding and practice of the most recent investigations of correct pedagogical practice is especially good. They have taken kindly any criticisms or suggestions I have offered and there is a fine spirit of co-operation among them.

It is a great misfortune to lose Miss MacNeill's services at this time, due to a nervous breakdown, caused by too close application to her school work and a lack of vacation for about two years. She had successfully organized her school for the Junior High school work and was making good progress in the subjects of the new program, which the Board approved last summer and which received the approval of the State Superintendent. Although Miss MacNeill had never had any special training for the Manual Training, by individual study she had "worked up" the subject and had begun to make a start with the same. It will be very difficult to find a teacher at this time, with the training and ability to carry on this Junior High school work, if we can find any at all. We have been searching for such a teacher, now, for about three weeks for the Durham Junior High and without success. The Rev. Mr. Burrill has very kindly consented to do the best he can with the work for a time, until we can get a regular teacher.

The work in all the schools has been much broken into and slowed up, due to the epidemic, and it seems doubtful to me, since we have lost so many weeks, whether we can make them

all up, and therefore accomplish all the required work of the State Program, without, at least, keeping later than usual in the spring term. I know the teachers are all endeavoring to the best of their ability to cover all the necessary work, but it will not pay to do the work so hurriedly as not to do it thoroughly.

During the months of December and January, we have been giving standard tests to all the pupils in the district, in the fundamental subjects, reading, writing, spelling, composition, and arithmetic, beginning with the fourth grade pupils. These tests and the method of administering and scoring of them have been practically the same or similar to tests which were given last year. I have not been able to get the records in full and tabulate the results of these tests as yet; besides, I have not been able to find the records of such tests for last year, so have no former results to compare them with. However, the results of these tests will be preserved, and I plan to conduct similar tests next spring term, and we shall thus "hang up" tentative standards, which we shall expect our pupils and teachers to attain to or to excel.

I believe the new program for our Junior High School is working out well. This program calls for concrete work in several fields of knowledge, because it is believed that the development of the child in this period does not respond readily to drill and abstraction. The subjects are inspirational, instructive and experimental; in fact, most of the subjects of the Junior High School may be said to be there largely for explorational purposes. The boy or girl at this time of life little knows what vocation or profession he may later wish to follow, so we believe in bringing him in touch with many fields of knowledge, such as Mathematics, History, Foreign Language, Science, and the Domestic or Practical Arts; and by so doing he frequently finds where his real interests lie, i. e., he sort of finds himself.

The organization of our schools in North Hampton is much better now that we have the third teacher at the Center than it was before with only two teachers to handle all the work of

the eight grades. Both Miss Thompson and Miss Philbrook, with three grades in their rooms and from twenty-five to thirty pupils in each room, have all the classes that it is possible for them to teach effectively and give to each child the individual attention that is essential. We may expect much more efficient work to be done now in the first six grades of the work of the elementary school as outlined in the State Program. The Board has also made a very progressive step by doing away with the teaching of the seventh and eighth grade work at the East School, as with the remaining six grades and from twenty-five to thirty pupils Miss Lord has still an exceedingly full program to accomplish. All of the seventh and eighth grade pupils of the town are much better taught in the Junior High at the Center, where they are brought in contact with a much broader curriculum, which is far better adapted to their interests and abilities in this period of their education. We hope that we shall soon be able to find a teacher, whose training and experience is such that she will be able to carry out the work for this school as outlined in the State Program. Another year, we may possibly be able to add the ninth grade work or the equivalent of the first year of High School. If we can, we would thus save the tuition now paid to towns outside the district for our first year pupils in other High Schools or Academies and also make it much easier and better for all parents, by holding our pupils for one year longer in our own schools.

On January 3, 1919, Mr. James N. Pringle, Deputy State Superintendent, in company with me, inspected the schools at the Center and expressed himself as much pleased with the work of remodeling the building last summer and the new organization of the school work. Later, I received a letter from Mr. E. W. Butterfield, State Superintendent, stating how pleased he was with the nature of Mr. Pringle's report, a copy of which I have since received. In this report, I find we are commended in many respects, while at the same time there are several suggestions and helpful criticisms which I can better take up with you personally. One thing particularly

that Mr. Pringle regretted was that no satisfactory ventilating system was installed in connection with the new arrangement for heating, which seemed to him to be entirely adequate. He spoke in high terms of the work of the teachers, which he observed.

One thing which I would suggest is the organization of a Parent-Teachers-Citizen's Association in North Hampton. By means of such an Association I believe we might obtain closer co-operation between the home and the school, to the mutual benefit of the parent, teacher and pupil. Through this organization the aims of the teachers and the value of our methods could be demonstrated and dispersed.

I suggest that the Board, if anything, increase their recommendations for appropriations, since nearly everything, supplies, fuel, wages, etc., is on the increase. There is, especially, a very severe teacher shortage, the greater demand tending to increase wages materially. The opinion of educators everywhere is that the present is no time to retrench, but rather that the schools, the keystone to sound American Citizenship, should be kept at the highest point of efficiency possible.

We have collected some school statistics for 1917-1918 as a part of this report, from a study of which you will see your per cent. of attendance for last year increased by 2.9 per cent. and the number of cases of tardiness decreased from 89 to 86. This is a very creditable record when we consider the exceedingly severe winter we experienced last year. The other towns of this district fell down quite badly in this respect last year. Of course, our attendance this year has been lowered somewhat, due to the prevailing influenza epidemic; however, to date, it has been nearly as high as the average for last year. The attendance problem is one of our big problems and one of great injury to the best work of the schools. We appeal to the parents for their co-operation, in order that we may have better attendance and even less tardiness in the future.

Miss Helen C. Johnson has continued to give excellent service as Supervisor of Music and I refer you to her report,

which is appended and made a part of this report, for information regarding the work in Music.

In conclusion, I wish to express my gratitude to all the teachers for their loyalty and co-operation in trying to make our schools what they ought to be, and to you, the Members of the School Board, for your support and advice.

Respectfully submitted,

C. H. WALKER.

Exeter, N. H., February 15, 1919.

---

NEWBURYPORT, MASS., February 1, 1919.

*Mr. C. H. Walker, Superintendent of Schools, North Hampton, N. H.*

DEAR SIR:—I have the honor herewith to submit my second annual report of the Music in North Hampton.

Of course with Music, as with all the other subjects, the work has been impeded by the schools being closed through the epidemic.

With the exception of changing the course in the lower grades, the work has been carried on much the same as last year.

I think the last two years has made us realize as never before the value and necessity of having Music taught in the schools. Certainly if Music was considered essential in keeping up the morale of our armies, so that trained leaders were engaged to teach the boys to sing, I think we all must see the importance of having it taught to the children.

If the slogan, "I Hear America Singing," is to be fulfilled in the near future, the work must go on in our schools.

It is the instructor's first endeavor to have all the children sing and to obtain that result the simplest of rote songs are taught to the youngest children. These songs not only appeal to the children through the words and simple melodies, but at the same time they are unconsciously acquiring a taste for

good music, as the songs are taken from the best composers and many are folk songs.

In the second year notation is presented, first through the presentation of a song already familiar to the children. From then on the children receive drill in sight singing. Rote songs are still continued, however, for the artistic side of Music is not neglected through the drill period.

Through the year, standard hymns, folk songs, carols and patriotic songs are taught so that all the children may know the most familiar ones.

The results obtained, depending on the ability of the pupils and their interest in the work, have varied in the different grades.

The instructor wishes to take this opportunity to thank all who have co-operated with her in her work.

Respectfully submitted,

HELEN C. JOHNSON, *Supervisor of Music.*

# Town Warrant

---

[L. s.] THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of North Hampton in the County of Rockingham, in said State, qualified to vote in Town affairs:*

You are hereby notified to meet at the Town House in said North Hampton, on Tuesday, the ninth day of March next, at one of the clock in the afternoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.

3. To see what action the town will take regarding accepting State Aid for roads.

4. To see what action the town will take regarding extending the street lights on Woodland Road.

5. To see what action the town will take regarding constructing a burial vault at the Center Cemetery and appropriate money for the same.

6. To see what action the town will take regarding having a tablet placed at some suitable site in town in honor of our boys that went from this town in the World War and appropriate money for the same.

7. To elect delegates and alternate delegates to the Republican and Democratic National Conventions.

Given under our hands and seal, this twentieth day of February, in the year of our Lord nineteen hundred and twenty.

GEORGE G. CARTER,  
IRVING W. MARSTON,  
*Selectmen of North Hampton.*

# Report of Trustees of Public Library

---

NORTH HAMPTON, N. H., February 16, 1920

During the past year we have purchased 44 new books, of which 23 are fiction. Also there have been 65 books given to the Library, making the total additions 109. The number of volumes in the Library is now about 2,510, of which about 1,390 are fiction. The same magazines as in previous years have been provided for our reading room.

Two new bookstacks are needed for our immediate use, and this change will necessitate a rearrangement of the electric lighting. We, therefore, recommend that sufficient funds, in addition to our regular budget, be provided for this improvement and for the completion of the grading of the Library grounds.

The Library expenses for the past year are given below:

Salary of Librarian.....	\$100.00	
New books .....	98.64	
Magazines.....	17.00	
Fuel.....	26.00	
Lighting.....	14.55	
Insurance.....	50.00	
Miscellaneous.....	24.02	
		<hr/>
		\$330.21
Received from book fines.....	4.34	
		<hr/>
		\$325.87

We estimate the ordinary running expenses for the coming year as follows:

Salary of Librarian.....	\$100.00
Fuel and lighting.....	50.00
New books.....	120.00
Magazines.....	15.00
Miscellaneous.....	15.00
	<hr/>
	\$300.00

We therefore recommend that the above sum of \$300, together with such additional money as may be needed for the bookstacks and grading, be raised for the running expenses of the Library.

EDWARD M. SMITH,  
ADA E. MOULTON,  
FRED L. DOW,

## School Report

### *To the Citizens of North Hampton;*

The towns of New Castle, Newington, Rye, North Hampton, Hampton, Seabrook and Hampton Falls, now form one supervisory union, as grouped by the State Board of Education. The school boards of the seven towns met in May and elected a superintendent, chairman, treasurer and secretary of the union.

Mr. C. H. Walker, of Exeter, was elected superintendent of this union. We believe that the schools of this town under his jurisdiction, with the co-operation of the teachers and parents, have had a successful year.

A Parent-Teachers' Association has been formed during the past year. At the meetings school affairs are discussed which are helpful both to the teacher and parents. We hope that all the parents will give the association their support.

Miss Lena Phair is principal of the Junior High room. Miss Phair has had special training for Junior High work, and with her natural ability as a teacher has made our Junior High School a success. Miss Mabel D. Philbrook has charge of the Intermediate School, and her work is highly commended. Miss Helen Thompson has the Primary room and her work has always been very satisfactory. Miss Anna Lord, who has served us faithfully at the East School, resigned in October. We then elected Mrs. Mary Fogg, of Hampton Falls. She taught about two months and then was forced to resign on account of ill health. Mrs. Lila Drew served as a substitute teacher, until we secured Miss Greta Myers, of Hampton. Miss Myers has been with us only a short time, but we believe that she will prove successful in her work. Miss Helen Johnson, of Newburyport, was re-elected music teacher for our schools.

During the summer months the school house at the Centre had two coats of paint and the necessary repairs made.

We received about \$220 interest on the fund from Centennial Hall and this enabled us to improve the condition of the hall. With a few more improvements the hall would be in a first class condition, and we hope next year to make further repairs.

A cistern is in the cellar of the school building at the Centre, and while the water from it is useful, it does not prove to be good drinking water. The drinking water still has to be secured from the neighbors as in the past, but we hope some day a way will be found to supply the schools with good drinking water, without depending on the neighbors.

On account of the increased cost, it has been necessary for us to discontinue several routes where formerly the children have been transported. The state law requires that all children living more than two miles from the school shall be transported at least one half the distance. If the district wishes that the children living less than two miles be given transportation in the winter term, it will be necessary for the district to make a larger appropriation for transportation than in the past.

With the increased cost of fuel, labor, supplies, etc., it is with some difficulty that we are able to pay all the bills, notwithstanding the large appropriation made last year. Next year it will be necessary to increase the salaries of the teachers and with the increased cost of the other expenses of the school, the appropriations should be made accordingly.

We thank the teachers and citizens for their co-operation and loyal support and we trust you will continue to give the schools your support, for the welfare of the children of this town.

AUSTIN J. NORTON,  
ADA E. MOULTON,  
NELLIE F. DRAKE,

*School Board of North Hampton.*

# Report of Superintendent of Schools

---

*Members of the North Hampton School Board:*

I herewith submit my second annual report for your consideration.

## WORK OF THE YEAR

Although the work last year was broken up very much during the fall term, due to the influenza epidemic, for several weeks, we were able to make up all weeks lost, and by the teachers concentrating their attention on the essentials, in each subject, practically all the required work, as outlined in the state program, was covered in every grade in each school. Comparatively few failed of promotion at the end of the school year, in fact only three out of the total number registered, or 106. The per cent. of attendance for all schools was a little less than for the previous year, due doubtless to the influenza epidemic and other sickness largely. The number of tardinesses was much larger, showing an increasing lack of promptness on the part of many pupils. I would like to again call to the attention of all parents what I said in my report of last year relative to attendance and tardiness. Good regular attendance and punctuality on the part of all pupils is a fairly good barometer of the kind of work any school is doing. When pupils are in their places promptly, one may be reasonably sure their attitude toward the school is businesslike and the work of the school will be promptly and probably more efficiently done. The co-operation of parents will do much to make this condition possible.

Many of the activities started during the war were continued throughout the year with excellent results, particularly the sale of Thrift and War Savings Stamps and the School Home Gardening. We believe this work should be continued, as it has been used deliberately for the teaching of thrift, generosity, loyalty and patriotism, and thus will prove of permanent value all through the lives of every pupil who has been given encouragement in the same.

Since my last report I have attended three Teachers' Institutes, and two conferences of superintendents, one at Plymouth for the week of August 18, last and one for three days at Durham, the week of December 19, last. I have had three meetings for all teachers of my union, besides many personal conferences with all teachers. Since September 1, last, I have made 70 visits to the North Hampton schools and attended three of your board meetings.

With one exception, at the East School, we have been fortunate in having the same corps of teachers as were with us last year. In this school the work has been very much broken up due to frequent changes in teachers. Miss Lord, who had given excellent service in the past, was released to take a much better position, and Mrs. Mary E. O. Fogg, was engaged to take her place, and was making good progress with the school when she had to give up on account of illness. Mrs. Lila Drew substituted very successfully for several weeks while we were searching for a permanent teacher. Finally we were able to engage Miss Greta Myers, who is well qualified to do the work, and who is teaching and managing her school successfully. Miss Helen C. Johnson has continued to give excellent service as Music Supervisor, and for further information regarding the work in music, I refer you to her report, which is appended and made a part of this report.

#### TEACHERS' SALARIES

I wish to call your attention to the great shortage of teachers that is threatening not only the schools of New Hampshire but the schools of the whole country. General Streeter, Chairman of the State Board of Education, in an address to the superintendents at the conference in Durham in December, pointed out this great danger to all. He said that there are already in New Hampshire, fifty schools closed for lack of teachers and that they expected there would be about eighty more schools closed after the Christmas vacation, because of the teacher shortage. Continuing, he said, "This condition seems not confined to any one section, but to prevail

generally throughout the country. Nearly all the educational journals and magazines now coming to our office contain editorials and news items emphasizing that the danger from this cause threatens to impair and even destroy the efficiency of all public schools. The reason most generally assigned for these conditions is the inadequacy of salaries to hold teachers now in service or to attract new ones to that service."

To illustrate the almost panicky utterances on this question he quoted from a few of the many statements being made.

"The Bulletin of the National Education Association for November, after commenting on the increase of salaries already made, continues:

"The increases are not sufficient however, to remove the danger. Over 100,000 positions in the public schools to-day are vacant or filled by teachers who cannot pass the minimum tests for teachers' certificates. Strong teachers are leaving the profession because of inadequate pay. Positions are being filled by immature and untrained teachers. It is estimated that the number of teachers below 21 years of age has, during the last year, increased by not less than 25 per cent.

"An investigation made by this Association shows that the attendance at teacher training institutions has decreased over 20 per cent since 1916. It is high time, not only for the teachers, but the public, to give serious consideration to the teacher problem.'

"On Dec. 6, Governor Runyon of New Jersey issued a general proclamation to the people of that state, in which he said, 'Unless the people and members of School Boards are aroused to the great peril that is now threatening, the 600,000 in our New Jersey schools to-day, and perhaps a whole generation of other children, may be made the victims of a demoralized and broken down educational system.

"The crisis is rendered acute by the alarming scarcity of teachers and that scarcity is due to the low salaries paid. Already the teacher scarcity has caused the lowering of educational standards and even the suspension of classes throughout the state. It has made necessary the hiring of teachers

inadequately trained for the work. Serious as this situation is, it is only the beginning of what may become the gravest crisis the schools of New Jersey have ever faced. It is a crisis that is not limited to New Jersey alone, it looms as a menace to the whole country, to all the public schools in all the states.

"New Jersey, therefore, faces the immediate prospect of closing schools or of drawing into the teaching profession a still larger number of those inadequately trained and without any special preparation for the work. If our children are to be taught by incompetent teachers, or are not to be taught at all, the end of American democracy, as we know it, is in sight."

"There is now pending in the Ohio Legislature a resolution reciting the threatening conditions where hundreds and perhaps thousands of Ohio school classes will be without teachers and closes with the following:

"Be it further Resolved; That the General Assembly request the governor of the state by proclamation to ask that all forces of the state join this educational crusade by addresses and by printed advertisements which will recruit the ablest young men and women of Ohio as teachers in our public schools."

In the Boston Sunday Herald of Dec. 28, Dr. Thomas, State Superintendent of Public Schools for Maine, published a statement, to the effect that 80 schools were then closed because of the teacher shortage and that the number would shortly be greatly increased. Besides, he said, "If present emergencies are not met at the coming town meetings, there will be 500 schools closed next autumn at the best calculation, and many other schools will be opened by girls of no training and less than 20 years of age." Furthermore he gave the following statistics:

"Out of 650,000 teachers in the United States, 143,000 left the profession last year. In four years the graduates of normal schools in the United States decreased 30 per cent. One hundred thousand positions are without teachers or filled with teachers below the standard, and yet we have never,

in the history of America, realized as we do now the relation of education to free government. Nor have we realized before as now, what our schools mean to our country."

These foregoing statements from the widely separated states of Maine, New Jersey and Ohio, are only illustrative of country wide conditions.

General Streeter further informed us that from statistical experience we might expect in New Hampshire the withdrawal of between 400 and 450 teachers at the end of the present year. Our two normal schools will graduate less than 100, which is about the usual number. He said, "There is no certainty of filling the vacant places with a sufficient number of competent teachers. It seems absolutely essential, however, that our school boards and all other citizens interested in our schools should realize that an emergency confronts us and prepare themselves to co-operate with the State Board in all sensible and practical ways to meet the emergency."

#### SCHOOL BUILDINGS

Our buildings or rooms are now almost model rooms in every respect, for school purposes. One thing which I wish to suggest to the board is, that we should make some provision for properly ventilating the Centre School, as the present system is entirely inadequate. I recommend that the Board take the proper measure to bring this matter before the voters of the district at the spring meeting. Another matter that should receive the careful consideration of the Board and district is the installation of either a septic tank or chemical toilets, at least at the Centre School where we have a large number of pupils, and later at the East School also. With these improvements I believe our buildings would receive the permanent approval of the State Board of Education.

A few more slate blackboards should also be bought to replace some of the composition boards that are worn badly.

A piano is much needed for the Junior High School for chorus work. I believe the principal, Miss Phair, has about

\$51 which the pupils earned by giving an excellent little play early in the present year. I wish we could get enough more to go with this to purchase a good second-hand piano. Possibly this suggestion is such as to interest the activities of our Parent-Teacher Association.

One thing which I wish to suggest to the board is to give careful consideration to the advisability of the district employing a Red Cross nurse as a school or district nurse. We have such a nurse in Hampton this year, who is employed jointly by the local Red Cross Chapter and the School Board as the school and community nurse. In North Hampton we have medical inspection, which is very important; however, the "follow-up work" that the district nurse does in the homes of the community is fully if not more important than merely medical inspection. If North Hampton cannot have a nurse of its own, I feel quite certain that the Rye Board would be pleased to consider the employment of such a nurse jointly and possibly one or more other towns might wish to enter into the combination.

I have collected some school statistics for 1918-19 as a part of this report, which is appended.

I wish very much to attend the Columbia Teachers' College for about six weeks next summer, in order to take two or three courses pertaining to school supervision and administration, and have already obtained the permission of the State Board of Education to do so. I trust all the boards of my union will as readily grant me this privilege since such courses should increase my efficiency as your superintendent.

In closing, I wish to express my appreciation of your counsel and cordial support, and of the co-operation of the parents and teachers in making the school work a success.

Respectfully submitted,

C. H. WALKER.

Exeter, N. H., Jan. 31, 1920.

*Mr. C. H. Walker, Superintendent of Schools, North Hampton.*

*Dear Sir.*—The weeks and months have passed so rapidly that I hardly realize it is time for me to submit my third annual report of the music in North Hampton.

The work has been carried on in the usual manner. Perhaps it is safe to say that this has been the most successful year of the three that I have been there, for there have been no interruptions such as the epidemic of last year caused, which necessarily impede the progress of the work.

After the first three years of work where the children through rote songs have learned to sing and where they have had ear training and some sight reading, they are ready for the more technical drill of the fourth grade. In the fifth and sixth grades two part singing is enjoyed and drill in chromatics and minor scales is given.

In the seventh and eighth grades two and three-part work is studied.

I wish to take this opportunity to thank all who have given me their co-operation and support.

Respectfully submitted,

HELEN C. JOHNSON, *Supervisor of Music.*

# School Board's Financial Report

From Sept. 1, 1918, to Sept. 1, 1919

# Town Warrant

(L. S.) THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of North Hampton in the County of Rockingham, in said State, qualified to vote in Town affairs:*

You are hereby notified to meet at the Town House in said North Hampton, on Tuesday, the eighth day of March next, at one of the clock in the afternoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and to make appropriations for the same.

3. To see what action the town will take regarding accepting State Aid for roads.

4. To see what action the town will take in regard to repairing the sea wall on the South side of Little Boars Head, near the residence of Mary B. Frost, and appropriate money for the same.

5. To see if the town will appropriate \$579.38 to meet the under appropriation of 1920, made for the purpose of building a Receiving Tomb.

6. To transact all other business that may legally come before the meeting.

7. To see what action the town will take in regard to purchasing a stone crusher, tractor or any other road machinery which may be required for the use of the highway department in the Town of North Hampton, and appropriate money for the same.

Given under our hands and seal, this fifth day of February, in the year of our Lord nineteen hundred and twenty-one.

IRVING W. MARSTON,

JAMES F. HOBBS, Jr.

LESLIE L. LOVETT,

*Selectmen of North Hampton.*

## Report of Trustees of Public Library

---

NORTH HAMPTON, N. H., February 12, 1921.

During the past year we have purchased 63 new books, of which 41 were fiction. The number of volumes in the library is now about 2,570, of which about 1,430 are fiction. Four magazines: Harpers', Scribners', Century and St. Nicholas' have been provided for the reading room.

The contract has recently been let for building the two new bookstacks mentioned in last year's report and this change will necessitate a re-arrangement of the electric lighting. The expense of this improvement will be provided for in our new budget.

The Library expenses for the past year are given below:

Salary of Librarian.....	\$100.00
New books.....	104.64
Magazines.....	20.00
Lighting.....	15.00
Miscellaneous.....	5.93
	<hr/>
	\$245.57
Received from sale of old magazines.....	6.00
	<hr/>
	\$239.57

We estimate the ordinary running expenses for the coming year as follows:

Salary of Librarian.....	\$100.00
Fuel and lighting.....	55.00
New books.....	115.00
Magazines.....	15.00
Miscellaneous.....	15.00
	<hr/>
	\$300.00
Add estimate for permanent improvements .....	200.00
	<hr/>
Total.....	\$500.00

We therefore recommend that the above sum of \$500 be raised for the ordinary running expenses and the permanent improvements.

EDWARD M. SMITH,  
FRED L. DOW,  
ADA E. MOUTLON,  
*Trustees.*

## School Report

*To the Citizens of North Hampton:*

At a meeting in May, Mr. C. H. Walker was re-elected superintendent of schools for this Union.

We re-elected the same teachers at the Centre school as last year. Mrs. Lena Smith has charge of the Junior High room, Miss Mabel Philbrook, the Intermediate room, and Miss Helen Thompson, the Primary room. It was voted at our last district meeting to employ two teachers at the East school. Mrs. Lila Drew has charge of the Primary room, and Miss Esther Baker, the Intermediate room. We believe that better results are obtained by employing two teachers, as the pupils have more individual instruction. It was necessary for us to purchase a new stove, blackboard, and teacher's desk in order to open the second room. The room was painted and the necessary repairs made.

The flag pole at the Centre became weak and was blown down by the winds. It will be necessary to appropriate money for a new pole at our next district meeting.

It was voted at our last district meeting to pay the tuition of pupils attending Newburyport High school. We later found that it was an illegal vote, for according to the school laws, High school tuition cannot be paid outside of the State.

It is necessary for us to make certain changes in our schools from time to time to meet the requirements of the State Board of Education.

We ask for co-operation in managing our school, for with co-operation comes success.

AUSTIN J. NORTON,  
NELLIE F. DRAKE,  
ARTHUR A. BROWN,  
*School Board of North Hampton.*

## Report of Superintendent of Schools

---

*To the North Hampton School Board:*

I have the honor to submit my third annual report as superintendent of schools. The reports of your supervisor of music and school physician are made a part of this report and merit your careful reading and I have tabulated school statistics which will prove interesting to all citizens no doubt, as well as to the board.

### WORK OF THE YEAR

After a careful analysis of the scores made in the different grades in the *standard* tests that I gave last spring and comparing the results with *standard* scores for all the different grades, I find our grades fall below the *standard* scores in some subjects, more particularly in Reading and Composition, whereas they about equal or excel the *standard* scores in other subjects, more frequently in Writing, Spelling and the four fundamentals of Arithmetic. This failure in the Reading and Composition, judging from the scores attained, appears to be quite uniform throughout all grades; middle and upper grades, as well as in the Primary grades. In Composition, almost every grade is below the standard for that grade, and so our teachers this year must give much more consistent drill in this subject. This should be done by requiring more of both oral and written composition and seeing to it that there is steady improvement in the quality of the same. In Reading, practically all grades are below normal in both the factors of speed or rate of reading and also in comprehension. This indicates we must give much more attention to the teaching of Reading in North Hampton, in order to increase the speed or rate of reading and also

to raise the factor of comprehension, wherever they are below standard. At the East school, the scores obtained for all grades was below normal, in both multiplication and division, and so, much more drill in these processes must be given to raise the standard of achievement. With these exceptions I feel that our teachers last year, for the most part, did some very effective teaching.

One thing with which I am much pleased, is the fact that of all the number of pupils who failed of promotion, which was 11, (See table of Promotion and Retardation), 8 of those who were retarded, were in the first three grades. This is a common or expected condition. Under normal conditions the greatest amount of retardation takes place in the first two or three grades, due to several reasons, as immaturity, or poor attendance, because of bad storms or illness. The second most frequent point of retardation usually is in grades 6 and 7 due to the fact that some few pupils invariably reach about the limit of their ability in these grades. The total amount of retardation was only 13 % plus, which I consider an excellent showing. In some of the other districts of this Union we did not make as good a record in this respect and the greatest amount of retardation occurred in grades, where it should not have occurred. This resulted probably, because some teachers did not give the attention that was essential, to a few individual pupils, in order to bring them up to grade. Our teachers must see that this is done, as retardation means more expensive education for the school district, to say nothing of the handicap to pupils severally and individually.

#### ATTENDANCE

The per cent of attendance was 90.2 per cent or about the same as it was the previous year, which was 90.64 per cent. The number of cases of tardiness last year increased from 236 of the year before to 280, an increase of 18 % plus. Granted, that we had an extremely severe winter last year, yet it does not seem that our pupils

should have failed so in the matter of promptness. This year we have made a much better record with respect to attendance and tardiness, up to date, due to the excellent weather conditions. I again wish to urge all parents to co-operate to the fullest extent possible to make a good record with respect to both attendance and tardiness, as both are vitally important factors in increasing the morale of any school, which makes for successful school work.

#### TEACHERS

We were fortunate to retain all our teachers who were with us last year, with the exception of Miss Greta Myers, at the East school, who resigned to accept a better position. We were disappointed to lose her as she had done good work for us. At the last district meeting it was voted, for the board to fix up the spare room at the East school and to engage another teacher in order to keep all six grades in that school. This was done, and Miss Esther L. Baker was engaged as principal of the building to teach grades 4, 5 and 6 and Mrs. Lila M. Drew to teach grades 1, 2 and 3. The present organization of the work there could hardly be better, however the expense of these two schools is very large when we consider the cost per pupil of average membership, since there are only 11 pupils in one room and only 8 in the other. In my opinion, one strong teacher can do entirely efficient work with all the pupils there, in as many as four or five grades. However, this would mean the transportation of the sixth grade and possibly the fifth grade to the Centre school, and I realize the people in that section of the town are quite opposed to this.

All our teachers are thoroughly efficient in their respective positions. In fact, I believe our corps of teachers this year is fully as strong in all respects as that of last year, and stronger in some respects. Their scholarship is excellent and their understanding and practice of the most recent investigations of correct pedagogical practice is very good, considering their professional training and

experience. They have taken kindly any criticisms or suggestions I have offered and there is a fine spirit of co-operation among them. All they need is strong backing by all school officials and by all our people in general.

#### SCHOOL BUILDINGS

In my report of last year and the previous year I pointed out many of the defects in our present school plant, and so will only refer you to those sections for further consideration.

#### MEDICAL INSPECTION

A careful study of Dr. Fernald's report of the physical examination of last year will no doubt surprise many parents. Few perhaps could have realized the poor physical condition among so many of our children. I am very sorry that I have not as yet received the results of the examination for this present year. The real test will come when we are able to check up the number of defects that have been remedied as a result of the cards sent to parents. From the report here published it appears that defective teeth is the most frequent defect, and indicates that an active campaign of dental education is imperative in all our schools and homes. Besides, it shows the great need of a dental clinic for a town like North Hampton and also the benefits that would result physically and therefore educationally, if we were only able to have the services or part time services of a district nurse for "follow up work" in the homes of the community. This work of a district nurse is fully, if not more important, than merely the physical examination.

#### SCHOOL COSTS

One thing, which I believe will be interesting to you is the comparison of costs of schools in the different districts of this Union for last year. I have computed the same on the basis of cost per pupil of average membership.

*Cost per pupil of average membership:*

Newington.....	\$33.97
Newcastle.....	30.75
Rye.....	46.24
North Hampton.....	68.81
Hampton.....	47.93
Hampton Falls.....	48.24
Seabrook.....	35.28
For the State.....	59.71

These figures were obtained by omitting extraordinary payments, such as for repairs, remodeling, etc., and counting only the necessary running expenses of the schools. They illustrate to a certain extent the business efficiency of the management of all our schools, by the different school boards, at a time when all school costs have been mounting rapidly. You will note that the cost per pupil of average membership for North Hampton is greater than for any other district in the Union and also about \$9.00 per pupil more than for the State as a whole. This does not necessarily mean poorer management however, since we must take into consideration the efficiency of the service rendered as well as the figures. The principal reason for this greater cost of our schools is the fact that we have very many less pupils per teacher than in the other districts, which should mean that we are getting better service than they are. However, it may be well for the board to consider how we may reduce our expenses, without impairing the service rendered to the district.

In closing, I wish to thank the Board for their advice and loyal support, and also the teachers, parents and pupils for their co-operation in the interests of the schools.

Respectfully submitted,

C. H. WALKER.

February 8, 1921.

## MEDICAL INSPECTION

*Report of School Physician*

District of No. Hampton, Schools: Grades 1 to 8

Date of examination, May 1920

No. of pupils examined.....	87
No. of exclusions on account of communicable diseases	8
No. of card notices, physician to parents.....	76
No. of instances of defects remedied since last examination.....	18
No. of instances treatment secured since last examination.....	6

*Number of cases found of*

Anaemia.....	2
Malnutrition.....	1
Nervous disease.....	11
Skin disease.....	2
Defective teeth.....	67
Hypertrophied tonsils.....	39
Adenoids.....	3
Other diseases of oral respiratory tracts.....	2
Unvaccinated.....	49
Unvaccinated without proper excuse.....	48

Measles.....	47
Influenza.....	4
Tonsilitis.....	12
Whooping cough.....	49
Mumps.....	43
Chicken pox.....	44
Sanitary condition of school buildings, yard and surroundings—good.	

A. M. FERNALD, M. D.

*Mr. C. H. Walker,*  
*Supt. of Schools,*  
*North Hampton, N. H.*

DEAR SIR:—

The time has come for me to submit my fourth annual report of the music in North Hampton.

The work has been carried on as usual—the results in the different rooms varying with the application and ability of the pupils.

Perhaps it may be well to give a brief outline of the work as it is given in the grades. Very few of the little people who come to us in the first grade can sing a song correctly and independently, while some have never sung at all. Our first aim, therefore, is to get them all singing by songs which appeal not only in music, but in words. In a few months the majority of children can with some assistance sing a number of songs correctly. The so-called monotones who can not sing in unison with the others must be given more individual help. No matter how stubborn the case may be, I am confident that with the proper training and encouragement, provided the child's ears and throat are normal, he will sing correctly. If parents and teachers only realized how much encouragement helped these children who find it hard to sing at first, we could get them singing quicker than we do.

In the second grade rote songs are continued. Notation is first presented through an already familiar song. Ear and eye training is given and some sight reading taken up.

Rote songs are carried on to the third grade and sight reading is given more attention. In these grades motion and action songs are taught, not only to arouse the children's interest, but also to help them have better rhythm and to be more graceful.

As they go on to the fourth grade more technical work is taken up. This continues through the fifth and sixth grades, so that when the children enter the junior high

they are familiar with practically every problem which comes up in their music. In the fifth and sixth grades two and three part music is taught. Of course time and tone drills are given.

In the seventh and eighth grades two and three part work is studied. We studied the lives of some of the most famous composers, so that the pupils might know something about each one, for what particular kind of music they were noted and also the names of several of their best known works. This we did through the supervisor telling the stories of their lives and pupils bringing in what they could find of interest in outside books.

We are very glad to have the Junior Song and Chorus Book in our junior high. In a room where there are two grades it is best to have two sets of books so that the pupils of the eighth grade will not have to repeat the work of the year before.

I wish to thank those teachers who have co-operated with me in carrying out the work which I have left, and all others who have shown interest.

Respectfully submitted,

HELEN C. JOHNSON,

*Supervisor of Music.*

January, 1921.

# Town Warrant

(L.S.) THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of North Hampton, in  
County of Rockingham, in said State, qualified to vote  
in Town Affairs.

You are hereby notified to meet at the Town Hall,  
in said Hampton Falls, on Tuesday, the fourteenth day  
of March next, at ten of the clock in the forenoon to act  
upon the following subjects:

1. To choose all necessary Town Officers for the  
year ensuing.

2. To raise such sums of money as may be neces-  
sary to defray town charges for the ensuing year, and  
make appropriation for the same.

3. To see what action the town will take regarding  
the accepting of State Aid for roads.

4. To see what action the town will take regard-  
ing the extension of Electric Lights on the following  
roads: from Centennial Hall to Stratham line by way of  
Post and Winnicut roads; from the east end of Walnut  
Avenue to Stratham line; from Post Road to Exeter  
line, by way of Atlantic Avenue to Hampton line, by  
way of Pine and Mill roads; from Atlantic Avenue to  
Hampton line by way of Lafayette Road; from Atlantic  
Avenue to Rye line by way of Mill Road.

5. To see what action the Town will take regard-  
ing the suppression of the White Pine Blister Rust and  
appropriate money for the same.

6. To transact all other business that may legally  
come before the meeting.

Given under our hands and seal, this eighth day  
of February, in the year of our Lord nineteen hundred  
and twenty-two.

IRVING W. MARSTON,

JAMES F. HOBBS, Jr.,

HERMAN L. NORTON,

Selectmen of North Hampton, N. H.

We, the undersigned, having examined the books and accounts of the Treasurer of Trust Funds, certify them correct with proper vouchers.

EDWARD M. SMITH,  
GEORGE G. CARTER,

Auditors

## Report of Library Trustees

---

North Hampton, N. H., Feb. 9, 1922.

During the past year we have purchased 50 new books, of which 34 were fiction. The library now contains about 2610 volumes, of which about 1,460 are fiction. The reading room has been provided with the same magazines as last year. We have installed two new bookstands and rearranged the electric lighting. This change will provide us with additional shelfroom, sufficient for several years.

Additional grading should be done in front of the building, and suitable shrubbery would be a decided improvement. We recommend that a portion of our appropriation be used for this purpose.

We have arranged to erect in front of the library a stone on which may be placed our two soldier's tablets with room for two others which are to bear names of men from North Hampton who served in the Revolution and the French wars.

The library expenses for the past year are given below:—

Salary of Librarian.....	\$100.00
New books.....	90.83
Magazines .....	8.00
Fuel .....	72.75
Lighting .....	17.16
Repairs .....	1.13
Bookstacks and additional lights....	106.00
Miscellaneous .....	10.80

---

\$406.67

We estimate the expenses for the coming year as follows:

Salary of Librarian.....	\$100.00
Fuel and lighting.....	55.00
New Books.....	125.00
Magazines .....	15.00
Improvements and miscellaneous ex- penses .....	105.00
	<hr/>
	\$400.00

We therefore recommend that the above sum of \$400.00 be raised for library purposes.

EDWARD M. SMITH  
FRED L. DOW,  
ADA E. MOULTON,  
Trustees.

I am pleased to submit my fourth annual report as superintendent of schools. I also transmit to you the reports of your Supervisor of Music and School Physician, and the tabulation of the customary School Statistics.

### WORK OF THE YEAR

A careful diagnosis of the scores made in the Standard Tests, which were given in the fundamental subjects last spring seem to show improvement in Reading, however, the rate of reading was much too slow. Low scores were made in Writing, particularly in middle and upper grades last year, which was not true the year before. I know our teachers tried for the remainder of last year and are trying very hard this year to improve our standing, particularly in these subjects, and I am hopeful of much better results in this year's tests. High scores were made in Spelling in all grades and considerable improvement was made in Composition in some grades. Good, to high scores were made in almost all grades in the four fundamentals of arithmetic.

### ATTENDANCE

The per cent of attendance, 93.4 last year was the best it has been for the past four years. The number of cases of tardiness last year was 168 or 112 less than during the previous year. This is a very creditable improvement, yet there ought not to be more than one half as many tardinesses. I like to believe that both this improvement in attendance and tardiness, is an indication of a more serious purpose on the part of the pupils them-

selves, as well as due to the hearty co-operation of the parents with the teachers.

### THE JUNIOR HIGH SCHOOL

The upper grades of American Grammar schools, and the first one or two years of the high school are fast becoming reorganized into Junior High schools. In New Hampshire the Junior High School consists of grades 7, 8, 9 and 10, and the Senior High of grades 11 and 12. It has been found possible to rearrange the work which had formerly required eight years and in some places still requires nine years, so that certain subjects reserved for the High School could be introduced in these upper grades. Statistics show that wherever Junior High schools have been adopted, an increasing number of pupils continue their work in the Senior High School.

The pupils who left high school during the first year got no science or practical mathematics, and very little, if any, modern language or practical arts training. The customary offering was Ancient History, Algebra and a foreign language, which, however, usually was a dead one. When we consider this abrupt change from the methods they had been accustomed to in the elementary schools, it is strange that more did not fall by the wayside.

In the Junior High School an effort is made to give the pupils what is of interest and of real value to children at their age. Elementary Science is the science of common every day life and tends to arouse the pupil's interest to keep on and later study Physics and Chemistry in the high school. The French is largely conversational and the Domestic Science and Manual Training are wholly practical. The Geometry is merely constructional, not involving logic to any extent. The pu-

pil comes in contact with more than one teacher, yet the "home-room" teacher has the pupil in more than one subject. Thus we have an easy and natural transition from the one teacher school to the common high school.

By having tried these various subjects, previously only in high schools, the pupil can make a wiser choice of his high school course. His teachers also are in a much better position to advise him and his parents in this matter. Besides, if he cannot attend high school, his experience in the Junior school has given him a broader education than he would have obtained by the old plan. These are only a few of the many advantages of the Junior High School.

We have a very difficult problem in North Hampton to solve, since some of our pupils wish to enter Newburyport High, where they have not Junior High work, but still have nine grades of strictly elementary school work before beginning High school subjects; while others wish to enter Hampton Academy, Robinson Seminary or the Exeter High School. To enter any of the latter schools without loss, pupils must have had two years work in High school subjects, which are given in grades 7 and 8 of the Junior High School. We are trying to solve this problem this year, by having dropped the practical Arts subjects entirely, devoting less time to the strictly high school subjects, but giving more time to the review and drill of the elementary school subjects. The question now is, whether in trying to fit our pupils for both the old and new type of High School, by spreading our teaching over so many subjects in grades 7 and 8, shall we not fail to fit thoroughly for either. We sincerely hope this will not prove true, yet it seems to me to be a possibility. I am sure the School Board as well as your superintendent and teachers, are very desirous

of giving just that training in grades 7 and 8 that individual pupils and parents desire, in order that the pupils may enter any one of the above secondary schools, without loss. The Junior High School is the one school in North Hampton that belongs to the whole community, and where, more than in any other matter the chief interests of the whole community should center. With strong support on the part of all citizens it will be a school of which we may all be justly proud.

#### HEALTH SUPERVISION

A study of the report of the school physician does not show the excellent results from the physical examination it ought to, since out of a total number of 224 defects found the previous year, only 6 cases were treated. The most frequent defect found, again proves to be defective teeth, showing the great need of a dental clinic for North Hampton children. The results of the health supervision, I believe, show the urgent need of a school or community nurse for the very important "follow up work," in getting more pupils treated, thereby making them better mentally as well as more physically fit for their school and life work.

In closing, I wish to express my appreciation of your counsel and cordial support, and of the cooperation of the parents and teachers in making the school work a success.

Respectfully submitted,  
C. H. WALKER.

Hampton, N. H., Feb. 1, 1922.

## REPORT OF MUSIC SUPERVISOR

Mr. C. H. Walker,  
Supt. of Schools,  
North Hampton, N. H.

Dear Sir:—

I submit the following report of the work in music during the school year 1921-1922.

In general the outline as given in our State outline has been followed, with addition where it has seemed advantageous.

A brief outline of the grade work is as follows: In the first grade the children have been learning rote songs. The selections have been such that the little people's interest has been instantly aroused, thereby encouraging their efforts. In the early grades all the children love their music and try hard to sing their songs correctly. We have been delighted to see some of our worst cases in monotones sing in tune, and we hope by continuing individual work, that all will carry tune properly before the end of the school year. Very simple notation is also introduced during the first year.

During the second year rote songs are continued as well as simple staff reading. Simple problems in time are introduced, all work being carried on through the song itself that the child's interest may not lag.

In the third and fourth grades more attention is given the time and tune problems and rote songs, although still taught occasionally are in the back ground. As the year progresses two part music is introduced.

In grades five and six two and three part songs are taught. Technical points are taught in preparation for chorus work. Interpretation is given a large share of time.

In Junior High the time is given almost wholly to chorus work. We have been greatly aided by the use of

the piano during the past two months. Our numbers have been few and the use of the instrument has given the pupils courage and confidence.

I wish to thank the teachers at this time for their kindly co-operation and also the parents for their goodwill and friendly appreciation.

Very respectfully,  
ESTHER B. COOMBS,  
Supervisor of Music.

# HEALTH SUPERVISION—REPORT OF SCHOOL PHYSICIAN

# TOWN WARRANT

(L. S.) STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of North Hampton in the County of Rockingham in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Town Hall in said North Hampton on Tuesday, the Thirteenth day of March next at One of the clock in the afternoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.

3. To see what action the Town will take regarding the accepting of State Aid for roads.

4. To see what action the Town will take regarding the extension of electric lights from Atlantic Ave. to Hampton line by way of Post Road and from Atlantic Ave. to Post Road by way of South Road and appropriate money for the same.

5. To see what action the Town will take in regard to purchasing a new fire truck and appropriate money for the same.

6. To see what action the Town will take in regard to purchasing a piano for the Town Hall and appropriate money for the same.

7. To see what action the Town will take regarding the repairing of Ocean Boulevard (so called) and appropriate money for the same.

8. To see what action the Town will take in regard to purchasing a snow plough and appropriate money for the same.

9. To transact all other business that may legally come before the meeting.

Given under our hands and seal, this Sixth day of February, in the year of our Lord nineteen hundred and Twenty-Three.

IRVING W. MARSTON,  
JAMES F. HOBBS, Jr.,  
HERMAN L. NORTON.

OTIS S. BROWN,

Treasurer of Trust Funds.

North Hampton, N. H., January 31, 1923.

---

AUDITORS' REPORT

North Hampton, N. H., February 8, 1923.

We, the undersigned, having examined the books and accounts of the Treasurer of Trust Funds, certify them correct with proper vouchers.

EDWARD M. SMITH,

ASA A. BOOKER,

Auditors.

## REPORT OF LIBRARY TRUSTEES

---

North Hampton, N. H., Feb. 8, 1923.

During the past year we have purchased 46 new books of which 34 were fiction. The library now contains about 2640 volumes of which about 1500 are fiction. The reading room has been provided with the same magazines as last year.

The work of grading the grounds in front of the library building has been started and should be finished in the spring. We recommend that a portion of our appropriation, which is included in the "miscellaneous" item, be used for this purpose.

The contract for purchasing and erecting a stone for our Memorial tablets was let to Smalley, Hobbs and Hunter of Rochester, N. H., early in the past year, but as a result of a series of unforeseen and exasperating delays the work is still unfinished and no money has been paid. It is hoped that the firm may be able to complete their work at an early date.

It is quite desirable that our library should possess a set of "The Chronicles of America," published by the Yale University Press, but this valuable series of historical works is too expensive to be included in our budget. If any friend of the library should wish to make a substantial gift for our collection the trustees would recommend this work and will furnish all necessary information.

The library expenses for the past year follow:

Salary of Librarian.....	\$100.00	
New books.....	58.62	
Magazines .....	6.00	
Lighting .....	17.28	
Insurance .....	75.00	
Miscellaneous improvements.....	38.62	
		<hr/>
		\$295.25
Deduct book fines.....	9.60	
		<hr/>
Net expense.....		\$285.92

We estimate the expenses for the coming year as follows:

Salary of Librarian.....	\$100.00	
New books.....	125.00	
Magazines .....	15.00	
Fuel and lighting.....	55.00	
Bills for 1922, unpaid.....	90.00	
Improvements and Miscellaneous....	115.00	
		<hr/>
		\$500.00

We therefore recommend that the above amount of \$500.00 be appropriated for library purposes during the coming year.

EDWARD M. SMITH,  
FRED L. DOW,  
MARGARET B. SEAVEY,  
Trustees.

## REPORT OF SUPERINTENDENT OF SCHOOLS

To the North Hampton School Board:

I am pleased to submit my fifth annual report as superintendent of schools. I also transmit to you the reports of your Supervisor of Music and School Physician and the tabulation of the customary School Statistics.

### WORK OF THE YEAR

A careful diagnosis of the scores made in the Standard Tests, which were given in the fundamental subjects last spring seem to show improvement in Reading, however, the rate of reading was again much too slow. Our pupils are reading with a normal to high degree of comprehension but are not reading rapidly enough. In general our pupils are good oral readers, i. e., they read with good oral expression but they can not read silently and rapidly glean the thought from the printed page, and more than 90 per cent of all reading one does to-day, the best educators tell us, is just that sort of reading, either for pleasure or to gain information. Judging from the scores made, evidently this is the type of reading that most of our teachers need to stress a little more in their drill in reading. I do not mean that they should slight, however, the matter of oral reading. Again low scores resulted in Writing, but I am in hopes that the use of the new Houston system of Writing will help us to make a better record in the tests than in the past 2 years. High scores were made in every grade but one, in Spelling and there was much improvement in Composition in most all grades.

### TEACHERS

We were most fortunate this year to retain the same corps of teachers we had last year with one excep-

tion. Miss Esther E. Merrick resigned as teacher of the East School late in the summer and it seemed for a time that it would be almost impossible to get anyone with any training whatever, well qualified for the position. However, we finally made a very happy selection in the person of Miss Muriel Morey, a graduate of the normal training course of The Maine Central Institute of Pittsfield, Me. Miss Morey is making excellent progress with her school, is professional, profits from the suggestive helps we can give her and is loved by her pupils as much as she loves them, unless I am much mistaken in my judgment. We do not need to extol our other teachers. They are giving the same faithful, high type of service they gave last year. I would especially mention that Miss Philbrook is rapidly developing into an exceptionally strong Junior high teacher, now that she has become thoroughly familiar with its aims, purposes and special methods, though the work was entirely new to her last year. I also wish to commend very strongly the excellent results your Music Supervisor, Mrs. Coombs is getting in every school. I doubt very much if the Board or the parents either realize the great improvement made by the pupils in their singing. We plan to give a concrete demonstration of this later in the spring in the form of a musical, cantata or operetta.

#### ATTENDANCE

The per cent of attendance, 89.4, last year was four points less than for the previous year. The number of cases of tardiness last year, 235 or 67 more than in the preceding year.

Good regular attendance and punctuality on the part of all pupils is a fairly good barometer of the kind of work any school is doing. When pupils are in their places promptly, one may be reasonably sure their attitude toward the school is business-like and the work of the school will be promptly and more efficiently done.

The co-operation of parents will do much to make this condition possible.

### HEALTH SUPERVISION

A study of the report of the school physician as compared with his report for the previous year shows that very few pupils received treatment for defects previously found. Evidently the services of a school nurse for "follow up work" are needed in order to get more pupils treated for certain defects. Possibly North Hampton might be able to make some arrangement for the part time services of the school and community nurse of either Hampton or Exeter, with the school boards of these Towns.

### REPORT OF SCHOOL PHYSICIAN

District, North Hampton; Number pupils examined, 80;

Date of examination, June 15, 1922.

Disease	No. Cases found by examiner
Malnutrition	1
Defective vision	1
Defective hearing	1
Anaemia	1
Nervous disease	6
Orthopedic defects	2
Defective teeth	55
Hypertrophied tonsils	45
Adenoids	1
Defects of breathing	2
Unvaccinated	42
Unvaccinated (without proper excuse)	(42)
Total	157

A. M. FERNALD, M. D., School Physician.

### SCHOOL COSTS

I believe it will be interesting to you to compare the costs of schools in the different districts of this union

for last year. I have computed the same on the basis of cost per pupil of average membership.

Town	Cost
Newington	\$71.35
Newcastle	59.19
Rye	58.01
North Hampton	88.21
Hampton (grades)	48.64
Hampton Academy and High	77.33
Hampton Falls	52.34
Seabrook	33.91

These figures were obtained by omitting extraordinary payments, such as for repairs, remodeling, high school tuition etc., and counting only the necessary current expenses of the schools. The cost per pupil of average membership for North Hampton is more than for any other district in the union. The principal reason for this greater cost is the fact that we have many less pupils per teacher than in the other districts, which means we are getting better service than they are. However, the cost per pupil was very much reduced last year over the preceding year, when it was \$113.80.

In closing, I wish to thank the board for whatever advice and support you have given me and the parents and teachers for their co-operation in making a successful school year.

Respectfully submitted,

C. H. WALKER, Supt.

Hampton, N. H., February 7, 1923.

---

#### REPORT OF MUSIC SUPERVISOR

Mr. C. H. Walker, Supt. of Schools,

Dear Sir:

Please accept this, my annual report of the work in music, for the school year, 1922.

In general the same outline has been followed with additions or omissions where a change seemed advisable.

The following is a brief summary of the work. The little people entering school for the first time, some of them wholly without musical experience, are first taught rote songs. Material is selected within the understanding of the pupils, and artistic songs are taught so wholly captivating as to encourage the greatest effort. The scale, and simple notation are also taught the first year.

In grades two and three the teaching of rote songs is continued. The pupils are taught to sing with a sweet, flute-like tone, bringing out the best qualities of their voices. More advanced notation and time problems are introduced.

In the intermediate grades part singing takes first place. The best material of all times is placed before the pupils here as in the upper grades. Songs of other countries are taught and studied for interpretation. More intricate problems of time and tune are taught.

We have a very promising Junior High Chorus. We are singing three part music well, with and without the use of the instrument. In the months that are coming I hope we may spend some time on Music Appreciation and the study of some of the great masters.

The assembly for chorus work of all grades has proved advantageous in every respect. We are enjoying to the fullest the new music material purchased this year, part of which is being used for this chorus work.

I heartily thank the parents, teachers and members of our school board for their interest and help during the past year. I appreciate to the fullest your hearty support in my work.

Very respectfully,

ESTHER B. COOMBS, Supervisor of Music.
